ACKNOWLEDGEMENTS

Firstly, I would like to express my gratitude to Allah, SWT. for all his guidance and support in facing the difficulties of making this thesis. My utmost gratitude and appreciation go to Dra. Siti Daulah Khoirati, MA. for guiding me in the process of writing this thesis. Her constructive scholarly advice, scrutiny, and counsel have motivated me to produce a scientific research to the quality that it is. Despite of the difficulties that is encountered due to the pandemic, I appreciate her initiative to introduce a hybrid based (online and offline) research consultation. Such practice brings the opportunity of an in-depth reflection upon the insights she gave me, as well as a sense of structure regarding how the questions elucidated on my thesis are structured.

I also thank one of my lecturers for his contribution in helping me write this thesis though he is miles away in Japan,, Prof. Kudo Tsutomu for his willingness to share his invaluable insights and on-the-ground scope on the field as the Senior Deputy Director-General of JICA's Private Sector Partnership and Finance Department. Lastly, my sincere gratitude goes to the people who have provided their unconditional support. Without my Father, Sister, Brother-in-Law and most importantly, my late Mother; and without the joy brought by Jeffry Benedic, Samuel Christianto, Michael Joshua, Aldo Dajajasaputra, Namfon Saruta, Kirana Endiani, and Muhammad Fikry Ghibran, I truly would not be the person that I am today. Not to mention the colleagues that I haven't met for months due to the pandemic.
