Vaksinasi adalah suatu usaha untuk memberikan kekebalan pada ayam agar kebal terhadap serangan suatu penyakit. Penulisan tugas Akhir ini bertujuan untuk mengetahui manajemen vaksinasi pada ayam pedaging di PT. Ciomas Adisatwa Farm Piat Kalitirto Berbah Sleman Yogyakarta. Manajemen vaksin diperoleh dari pembukuan dan melakukan wawancara terhadap karyawan di PT. Ciomas Adisatwa Farm Piat Kalitirto Berbah Sleman Yogyakarta yang dilaksanakan pada 7-12 Maret 2016. Vaksinasi ayam pedaging di PT. Ciomas Adisatwa Farm Piat Kalitirto Berbah Sleman Yogyakarta dilakukan satu kali setiap periode. Vaksin yang digunakan adalah vaksin ND *live*, yang diberikan pada umur 14 hari melalui air minum. Manajemen vaksinasi PT. Ciomas Adisatwa Farm Piat Kalitirto Berbah Sleman Yogyakarta sudah baik terbukti tidak ada ayam yang terkena ND. Timbulnya suatu penyakit tidak hanya dapat dicegah dengan program vaksinasi saja, Disarankan PT. Ciomas Adisatwa Farm Piat Kalitirto Berbah Sleman Yogyakarta lebih meningkatkan kebersihan kandang dan lingkungan serta kebersihan tempat pakan.

Kata kunci: Vaksin, vaksinasi, ayam pedaging, manajemen.
