

## TABLE OF CONTENTS

COVER .....	i
HALAMAN PERSETUJUAN.....	ii
ACKNOWLEDGEMENT .....	iii
TABLE OF CONTENTS .....	iv
LIST OF TABLES .....	vi
LIST OF FIGURES .....	vii
APPENDIX LIST .....	viii
INTISARI.....	ix
ABSTRACT.....	xi
CHAPTER 1. INTRODUCTION .....	1
1.1. Background of Research .....	1
1.2. Problem Statement .....	6
1.3. Scope and Assumption .....	7
1.4. Research Objective.....	8
1.5. Research Benefits .....	9
CHAPTER 2. LITERATURE STUDY .....	10
2.1. Turnaround Maintenance Management.....	10
2.1.1. TAM Assessment in the Process Industry .....	11
2.1.2. TAM Management .....	14
2.2. Decision Support System (DSS) for TAM Management.....	20
2.2.1. Decision Support System in Maintenance and Project Task .....	20
2.2.2. Decision Support System (DSS) for Turnaround Maintenance.....	24
CHAPTER 3. THEORETICAL BACKGROUND.....	30
3.1. Turnaround Maintenance .....	30
3.1.1. Turnaround Maintenance (TAM).....	30
3.1.2. TAM Management Best Practices .....	32
3.1.3. TAM Evaluation Methods .....	37
3.2. Plant Performance Measurement for TAM Evaluation.....	39
3.2.1. Overall Equipment Effectiveness (OEE) .....	39
3.2.2. Breakdown Occurrence (Number of failures).....	41
3.2.3. Unplanned Shutdown .....	41
3.3. Decision Support System .....	41
3.3.1. Decision Support System .....	41
3.3.2. Schedule Optimization Model.....	42
CHAPTER 4. RESEARCH METHODOLOGY .....	46
4.1. Research Flowchart .....	46
4.2. Research Design .....	46
4.3. Preliminary Research .....	46
4.3.1. Data Collection.....	47
4.3.1.1. Questionnaire .....	47
4.3.1.2. Direct Observation and Company Data .....	50
4.3.2. Data Analysis .....	51
4.3.2.1. Technical Evaluation of TAM .....	51

4.3.2.2.	SAP Data Analysis.....	52
4.3.3.	TAM Evaluation.....	53
4.4.	Development of Decision Support System Framework.....	54
4.4.1.	TAM Decision Flowchart and TAM Expert Validation.....	54
4.4.2.	DSS Architecture.....	54
4.4.3.	Task Filtering Algorithm and Program.....	55
4.4.4.	Development of Schedule Optimization Model.....	56
CHAPTER 5.	RESULT AND DISCUSSION.....	58
5.1.	The result on the Research Design.....	58
5.2.1.	Literature Review Result.....	58
5.2.2.	Research Methodology and Scope of Research.....	59
5.2.3.	Study of TAM Best Practice Theory.....	60
5.2.	The Result on the Preliminary Research.....	62
5.2.1.	Technical Data Analysis and Result.....	62
5.2.2.	Existing TAM evaluation.....	64
5.2.2.1.	TAM Practice comparison with best practice.....	65
5.2.2.2.	Questionnaire Result and Discussion.....	69
5.2.2.3.	The discussion of TAM evaluation result.....	73
5.3.	Framework of Decision Support System.....	78
5.3.1.	Architecture of the decision support system.....	78
5.3.1.1.	TAM decision flowchart.....	78
5.3.1.2.	Decision-support System Flowchart.....	80
5.3.1.3.	Architecture of DSS.....	82
5.3.2.	Task Selection and Filtering Program.....	84
5.3.2.1.	Algorithm of Task Filtering.....	84
5.3.2.2.	Computer Programming of Task Selection and Filtering.....	90
5.3.2.3.	The Task Filtering and Selection Algorithm Testing.....	93
5.3.3.	Schedule Optimization Model.....	96
5.3.3.1.	System Characteristic and Problem Definition.....	96
5.3.3.2.	Optimization Method and Justification.....	98
5.3.3.3.	Model Development.....	100
5.3.3.4.	Verification and Validation.....	103
5.3.3.5.	Simulation of Basic Optimization Model using Real Data....	104
5.3.4.	Model Improvement.....	106
5.3.4.1.	Schedule Optimization for TAM Activities.....	106
5.4.3.1.	Result of Schedule Optimization for TAM Activities.....	110
5.3.4.2.	Schedule Optimization for Sequenced TAM Activities.....	112
5.4.3.2.	Final Schedule Optimization for Sequenced TAM Activities	113
5.4.	Discussion of the Proposed DSS Framework and The Future Research	116
CHAPTER 6.	CONCLUSION AND RECOMMENDATION.....	119
6.1.	Conclusions.....	119
6.2.	Recommendations and Future Work.....	120
