Title Page	i
Approval Page.....	ii
Statement Letter	iii
Authenticity Letter	xi
Table of Content	xii
List of Tables	xiv
List of Figures	xvi
List of Abbreviations	xviii
Abstract.....	xix
Intisari	xx
INTRODUCTION	1
1.1 Research Background	1
1.2 Research Problems	4
1.3 Research Questions	4
1.4 The Aims of the Research.....	5
1.4.1 General aims of the research.....	5
1.4.2 Specific aims of the research	5
1.5 Research Benefits.....	6
1.5.1 Theoretical benefits.....	6
1.5.2 Methodological benefits.....	6
1.5.3 Clinical benefits	6
1.6 Research Originality	6
LITERATURE REVIEW	13
2.1 Osteoarthritis.....	13
2.1.1 Pathophysiology of osteoarthritis.....	13
2.1.2 Classification of osteoarthritis	16
2.1.3 Management of osteoarthritis.....	18
2.2 Interleukin 1	19
2.2.1 The role of cytokines in knee osteoarthritis	21
2.3 Genetic Polymorphism.....	26
2.3.1 Genetic polymorphism of IL-1R1 and IL1RN and knee osteoarthritis.....	28
2.4 Theoretical Framework.....	31
2.5 Conceptual Framework	32
2.6 Hypothesis.....	33

MATERIAL AND METHODS	34
3.1 Research Design.....	34
3.2 Population and Research Subjects	34
3.2.1 Control group	34
3.2.2 Case group	35
3.3 Research Variables.....	36
3.4 Operational Definition	37
3.5 Place and Date of the Research.....	40
3.6 Research Sample Size	40
3.7 Research Steps	42
3.7.1 Blood sample collection and preparation.....	45
3.7.2 Phenotyping analysis	45
3.7.2.1 Evaluation of serum IL-1Ra.....	45
3.7.2.2 Evaluation of serum IL-1R1	50
3.7.3 Genotyping analysis.....	53
3.8 Data Analysis	60
3.9 Ethical Aspect	60
RESULTS AND DISCUSSIONS	62
4.1 Results.....	62
4.1.1 Subject characteristic	62
4.1.2 Biomarker evaluation.....	64
4.1.3 Pain evaluation.....	66
4.1.4 Health status.....	66
4.1.5 Functional evaluation.....	68
4.1.6 Radiographic finding	71
4.1.7 Single nucleotide polymorphism	71
4.2 Discussions	86
CONCLUSIONS.....	99
5.1 Conclusions.....	99
5.2 Recommendations.....	99
SUMMARY	101
RINGKASAN	110
REFERENCES	119
APPENDICES	130
CASE REPORT FORM.....	134
GENE MAPPING	155
