Preface.....	ii
Surat Bebas Plagiasi.....	iii
Surat Keterangan.....	iv
Halaman Pengesahan	v
Table of Contents	vi
Table of Figures	ix
Table of Tables.....	xi
Abstract	xii
Chapter 1 Introduction	1
1.1 Background	1
1.2 Problem Statement	3
1.3 Objective	3
1.4 Solution and Benefit.....	3
1.5 Methodology	4
1.6 Writing System.....	4
Chapter 2 Literature Review.....	6
2.1 Summary	13
Chapter 3 Theoretical Basis.....	16
3.1 Big Data, IoT, And Artificial Intelligence.....	16
3.2 Mobile Application, Android Studio, Database (SQLite).....	17
3.3 Society 5.0.....	18
3.4 Mobile Application Development Methods	18
3.5 Using a Smart Service Implementation to Create a Smart Community .	20
3.6 Surveys Conducted for the Experiment.....	20

3.7	Comparison of the Java Language and Kotlin	21
Chapter 4	Methodology	23
4.1	Pre-Development Observation	23
4.1.1	Research Location	23
4.1.2	Problem Identification.....	24
4.1.3	Survey for the Social Platform Problem Identification.....	25
4.1.4	Solution Hypothesis	25
4.2	Application Development Plan	25
4.2.1	Application Observation	26
4.2.2	Application Requirements Analysis.....	27
4.2.3	Application Design.....	29
4.2.4	Application Development	30
Chapter 5	Implementation	32
5.1	Early Survey Result	32
5.2	System Analysis	36
5.2.1	Application Workflow	36
5.2.2	Application Flow.....	37
5.2.3	Application Mock-Up Design and Coding	44
5.2.4	Database	48
Chapter 6	Testing.....	51
6.1	Simulation Result	51
6.2	Final Survey Result	54
Chapter 7	Conclusion and Suggestions	58
7.1	Conclusion.....	58
7.2	Suggestions.....	59

REFERENCE.....	60
