TABLE OF FIGURES.....	viii
ABSTRACT.....	ix
ABSTRAK.....	x
INTRODUCTION.....	1
Background	1
Purpose of Research.....	3
Benefit of Research.....	3
LITERATURE REVIEW	4
Characteristics and Classification of the Domestic Cat	4
Anatomy and Physiology.....	4
The Digestive Tract of Cat	6
Stages of Digestive Process.....	7
MATERIALS AND METHOD.....	11
Materials	11
Method.....	11
Study Time Frame	11
Type of Study.....	11
Strategy of Literature Search.....	11
Material Collection Method	12
Data compilation	13
RESULTS AND DISCUSSION	14
Mouth.....	14
Anatomy	14
Physiology	17
Teeth.....	19
Anatomy	19
Characteristics and Physiology of the Feline Teeth	22
Feline Age Determination.....	23
Tongue.....	25

Anatomy	25
Feline Lingual Papillae	28
Physiology	31
Pharynx	31
Anatomy	31
Physiology	33
Oesophagus	34
Anatomy	34
Physiology	37
Stomach	37
Anatomy	37
Characteristics	40
Microbiota	41
Physiology	42
Stomach Secretions	43
Gastric Emptying Time	45
Small Intestine	47
Anatomy	47
Physiology	49
Large Intestine	64
Anatomy	64
Physiology	67
Anus	72
Anatomy	72
Physiology of Defecation	74
Salivary Glands	76
Anatomy	76
Physiology	79
Liver	80
Anatomy	80
Physiology	84
Gall Bladder	95
Anatomy	95
Physiology	96
Pancreas	97
Anatomy	97
Physiology	100
CONCLUSION	107
SUGGESTIONS	107

TABLE OF FIGURES

Figure 1. The digestive tract of the cat.....	7
Figure 2. Open view of the cat mouth.....	15
Figure 3. Types of oral mucosa in the upper jaw of the cat.....	16
Figure 4. Lateral view (A) and ventrodorsal view (B) of the feline skull	17
Figure 5. Lateral and ventral view of masticatory muscles in the cat.....	18
Figure 6. Anatomy of a single-rooted tooth.....	19
Figure 7. Deciduous and permanent dentition of the cat.	24
Figure 8. Papillae on the adult cat tongue.....	28
Figure 9. Marginal papillae found along the lateral edges of the tip of the tongue in suckling kittens.....	30
Figure 10. The changing of epiglottis positions.....	34
Figure 11. Cervical, thoracic and abdominal oesophagus of the cat.....	35
Figure 12. Structure of the feline stomach.....	38
Figure 13. Dorsoventral radiograph of the normal orientation of the feline stomach.....	39
Figure 14. Mechanism of carbohydrate digestion in the small intestine.....	54
Figure 15. Mechanism of protein digestion in the small intestine.....	57
Figure 16. Mechanism of lipid digestion in the small intestine.....	58
Figure 17. Intestinal villus microanatomy.....	59
Figure 18. Anatomy of the cat large intestine and its blood supply.....	66
Figure 19. Terminal portion of feline gastrointestinal tract	72
Figure 20. Right and left paranal sacs of the cat.....	73
Figure 21. Major salivary glands in cat.....	77
Figure 22. Anatomy of the parietal surface of the cat liver.....	82
Figure 23. Anatomy of the visceral surface of the cat liver.....	82
Figure 24. Schematic diagram of the cat biliary tract.....	84
Figure 25. Pear-shaped gall bladder in the domestic cat.....	96
Figure 26. Anatomy of the feline pancreas and pancreatic ducts	98
Figure 27. Activation of pancreatic proteases.....	103
