COVER THESIS.....	i
APPROVAL THESIS	ii
DEDICATION	iii
STATEMENT	iv
PREFACE	v
TABLE OF CONTENTS	vi
LIST OF FIGURES	xi
LIST OF TABLES	xii
LIST OF ATTACHMENT.....	xiii
LIST OF ABBREVIATION	xiv
ABSTRACT.....	xv
<i>INTI SARI</i>	xvi
CHAPTER I	1
A. Research Background.....	1
B. Problem statement.....	3
C. Originality in research.....	3
D. Benefits of research.....	3
E. Objective of research.....	4
CHAPTER II.....	5
A. LITERATURE REVIEW.....	5
1. Milk and Milk Fat.....	5
2. Horse Milk (HM).....	6
3. Goat Milk (GM)	7
4. Cow Milk (CM).....	9

5. Composition Analysis of Fatty Acid Profiles using Gas Chromatography	10
6. Fourier Transform Infrared (FTIR) Spectroscopy.....	11
7. Chemometrics.....	14
8. Application of FTIR Spectroscopy and Chemometrics for Milk Authentication.....	16
B. Theoretical Basis.....	17
C. Research Framework.....	19
D. Hypothesis.....	20
CHAPTER III	21
A. Research Design	21
B. Materials.....	21
1. Preparation of Horse Milk and Adulterants	21
2. Chemical and reagents for FTIR spectral measurement.....	21
3. Chemicals and reagents for GC-FID measurement.....	22
4. Chemicals and reagents for UHPLC-HRMS measurement	22
C. Apparatus and Instruments.....	23
D. Methods.....	23
1. Sampling Horse Milk and Adulterants	23
2. Fatty Acid Profile using Gas Chromatography- Flame Ionization Detector (GC-FID) Measurement.....	24
3. Fourier Transform Infrared (FTIR) Spectral Measurement coupled with Chemometrics	26
4. Untargeted Metabolomic Approach using UHPLC-HRMS Method	27
E. Data Analysis	29
1. Gas Chromatography-FID Calculation.....	29
2. Fourier Transform Infrared (FTIR) Spectral Measurement Coupled with Chemometrics	30
3. Metabolomics analysis using UHPLC-HRMS Method	30
4. Statistical Analysis	31
CHAPTER IV	32

A. Preparation of Milk Samples.....	32
B. Milk Characterization of Fatty Acid Profiles using Gas Chromatography- Flame Ionization Detector	33
1. Milk Fat Extraction	33
2. Characterization Milk of Fatty Acid Profiles using GC-FID	34
C. Authentication Milk using FTIR Spectroscopy and Chemometrics	38
1. Authentication Horse Milk and Goat Milk.....	38
2. Authentication Horse Milk and Cow Milk.....	47
3. Authentication Goat milk and Cow Milk	54
4. Fourier Transform Infrared Spectroscopy coupled Chemometrics	60
D. Untargeted metabolomics using Ultra-High Performance Liquid Chromatography Orbitrap High-Resolution Mass Spectrometer (UHPLC- Orbitrap HRMS) and Chemometrics.....	61
1. Extraction milk samples	61
2. Selection Total Ion Chromatography	61
3. The Untargeted Metabolomic Approach coupled with Chemometrics..	64
CHAPTER V.....	73
A. Conclusion	73
B. Suggestion.....	73
BIBLIOGRAPHY	74
ATTACHMENT	82
Attachment 1. The Binary Mixture of Samples containing Horse's Milk and Goat's Milk/ Cow's Milk	82
Attachment 2. Gas Chromatography Conditions (GC Agilent Technologies 7890B)	83
Attachment 3. FAME Profiles of Horse's Milk	84
Attachment 4. FAME Profiles of Goat's Milk	86
Attachment 5. FAME Profiles of Cow's Milk	88
Attachment 6. Fatty Acid Profiles from Milk using GC-FID	90
Attachment 7. Classification HM and adulterated with GM according to fatty acid composition using Orange Software.....	91

Attachment 8. Classification HM and adulterated with CM according to fatty acid composition using Orange Data Mining software.	92
Attachment 9. Classification GM and adulterated with CM according to fatty acid composition using Orange Software.....	93
Attachment 10. Principal Component Analysis interpreted metabolite HM from GM as adulterants using Minitab Software	94
Attachment 11. Principal Component Analysis interpreted metabolite HM from CM as adulterants using Minitab Software	97
Attachment 12. Principal Component Analysis interpreted metabolite GM from CM as adulterants using Minitab Software	101
Attachment 13. The Optimization Wavenumbers Region of Multivariate Calibration for Authentication of HM from GM.....	105
Attachment 14. The Optimization Wavenumbers Region of Multivariate Calibration for Authentication of HM from CM.....	106
Attachment 15. The Optimization Wavenumbers Region of Multivariate Calibration for Authentication of GM from CM.....	107
Attachment 16. The Binary Mixture Milk for UHPLC-HRMS	108
Attachment 17. Total ion chromatograms (TIC) of pure HM, pure GM and pure CM	109
Attachment 18. Classification HM and adulterated with GM based metabolite profile using Orange Software.....	111
Attachment 19. Selected Metabolite Profile of HM and GM using Orange Software.....	112
Attachment 20. Discriminant Analysis interpreted metabolite HM from GM as adulterants using Minitab Software	115
Attachment 21. Principal Component Analysis interpreted metabolite HM from GM adulterants using Minitab Software	116
Attachment 22. Classification HM and adulterated with CM based metabolite profile using Orange Software.....	118
Attachment 23. Selected Metabolite Profile of HM and CM using Orange Software.....	119
Attachment 24. Discriminant Analysis interpreted metabolite HM from CM as adulterants using Minitab Software.....	122
Attachment 25. Principal Component Analysis interpreted metabolite HM from CM as adulterants using Minitab Software	128

THESIS SUMMARY	137
APPROVAL OF THESIS SUMMARY	138
PUBLICATION OF THESIS	146
