

ABSTRAK

Isu eksklusif sosial yang dialami penyandang disabilitas di desa mengundang berbagai *Non-Governmental Organization* (NGO) masuk untuk mengintervensikan nilai inklusi sosial, seperti Desa Inklusif di bawah Program Peduli The Asia Foundation. Intervensi nilai inklusi sosial dalam program ini ditujukan untuk penguatan andil pemerintah melalui berbagai regulasinya agar turut hadir dalam pemenuhan hak penyandang disabilitas di desa. Masuknya NGO dengan membawa nilai baru di masyarakat tentu menghadirkan dinamika peleburan nilai tersebut dengan nilai masyarakat lokal desa, seperti dalam penelitian ini yang memilih lokasi studi kasus di Kalurahan Jatirejo. Penelitian ini membahas bagaimana program dengan nilai baru tersebut diimplementasikan di masyarakat, serta bagaimana dinamika peleburan nilai inklusi sosial dengan nilai lokal yang terjadi di masyarakat Jatirejo, sehingga dianggap oleh NGO terlibat menuai keberhasilan.

Kata kunci: Inklusi Sosial, Desa Inklusif, NGO, Masyarakat Desa

ABSTRACT

The issue of social exclusion experienced by persons with disabilities in villages has invited various Non-Governmental Organizations (NGOs) to intervene in social inclusion values, such as Inclusive Villages under Program Peduli The Asia Foundation. The social inclusion value intervention in this program is aimed at strengthening the government's contribution through various regulations so that it is present in fulfilling the rights of persons with disabilities in the village. The intervention of NGOs by bringing new values to society presents a dynamic fusion of these values with the values of the local village community, as in this study which chose the case study location in the Jatirejo Village. This research discusses how the program with the new value is implemented in the community, as well as how the dynamics of the fusion of social inclusion values with local values occurs in the Jatirejo community, so that the NGOs are considered to be involved in reaping success.

Key words: Social Inclusion, NGO, Villagers
