| HALAMAN PENGESAHAN .....                                | iii  |
| KATA PENGANTAR .....                                    | vi   |
| DAFTAR ISI .....  | viii |
| DAFTAR TABEL .....                                      | x    |
| DAFTAR GAMBAR .....                                     | xi   |
| DAFTAR LAMBANG DAN SINGKATAN .....                      | xiii |
| INTISARI .....  | 1    |
| ABSTRACT .....  | 2    |
| BAB I PENDAHULUAN .....                                 | 3    |
| I.1. Latar Belakang .....                               | 3    |
| I.2. Perumusan Masalah .....                            | 5    |
| I.2.1. Batasan Masalah .....                            | 5    |
| I.3. Tujuan Penelitian .....                            | 6    |
| I.4. Manfaat Penelitian .....                           | 6    |
| BAB II TINJAUAN PUSTAKA .....                           | 7    |
| II.1. Tinjauan Pustaka .....                            | 7    |
| BAB III DASAR TEORI .....                               | 15   |
| III.1. Ventilasi .....                                  | 15   |
| III.2. Ventilasi Malam .....                            | 17   |
| III.3. Beban Pendingin .....                            | 23   |
| III.4. Kenyamanan Termal .....                          | 26   |
| III.4.1. Faktor Kenyamanan Termal .....                 | 27   |
| III.4.2. Pendekatan Kenyamanan Termal .....             | 31   |
| III.4.3. Standar Kenyamanan Termal ASHRAE-55 [28] ..... | 33   |
| BAB IV PELAKSANAAN PENELITIAN .....                     | 38   |
| IV.1. Alat dan Bahan Penelitian .....                   | 38   |
| IV.1.1. Perangkat Lunak Simulasi Bangunan .....         | 39   |
| IV.1.2. Objek Penelitian .....                          | 41   |

|  |    |
|--|----|
| IV.2. Tata Laksana Penelitian .....        | 45 |
| IV.2.1. Pengumpulan data .....             | 45 |
| IV.2.2. Pemodelan Geometri .....           | 46 |
| IV.2.3. Input parameter bangunan .....     | 46 |
| IV.2.4. Simulasi .....                     | 57 |
| IV.3. Analisis Hasil Penelitian .....      | 57 |
| BAB V HASIL DAN PEMBAHASAN.....            | 59 |
| V.1. Suhu Operatif Ruangan .....           | 59 |
| V.2. Kenyamanan termal.....                | 65 |
| V.3. Profil energi ventilasi natural ..... | 73 |
| BAB VI KESIMPULAN DAN SARAN .....          | 78 |
| VI.1. Kesimpulan .....                     | 78 |
| VI.2. Saran .....                          | 78 |
| DAFTAR PUSTAKA .....                       | 80 |
| LAMPIRAN .....                             | 83 |
