

Table of Contents

Foreword.....	4
Abstract.....	5
Chapter 1: Introduction	6
Chapter 2: The Agenda for Low Carbon Transitions.....	9
Greenhouse Gas Emission.....	10
Indonesia's Low Carbon Transition.....	14
Decarbonization in Indonesia's Industrial Sector	15
Chapter 3: Climate Impacts and Options to Decarbonize in the Manufacturing Industry....	20
Greening of Power Grid	21
On-Site Generation	22
Fuel Alternatives	23
Energy Efficiency.....	23
Carbon Offsetting.....	25
Chapter 4: Jotun	26
Jotun's Global Sustainability Strategy.....	27
Chapter 5: Theoretical Review & Previous Empirical Findings.....	30
Stakeholder Theory	30
Resource-Based View	33
Stakeholder Analysis	36
Previous Empirical Findings	37
Chapter 6: Methodology	40
Research Methods.....	40
Data Collection	41
Research Structure	42
Validity and Reliability	44
Chapter 7: Findings and Discussion	46
Case Study - PT Jotun Indonesia	46
<i>Impacts, Resources and Capabilities towards Decarbonization (Objective 1)</i>	48
<i>Roles and Influence of Stakeholders in Decarbonization (Objective 2)</i>	56
<i>Developing Dynamic Capabilities and Roadmap for Decarbonization (Objective 3)</i>	78
Chapter 8: Conclusion.....	84
References	86
Appendixes	91
Appendix 1A - Interview List	91
Appendix 1B - Letters	93
Appendix 1C - Supplementary Data for Calculations	99
