

Table of Contents

1	Introduction	1
1.1	Research Background and Problem	1
1.2	Research Objective.....	2
1.3	Structure of the Thesis.....	3
2	Theoretical Background	4
2.1	Business Model as a Concept.....	4
2.2	Sustainability as a Concept	5
2.3	Circular Economy (CE).....	5
2.4	Sustainable Business Model.....	6
2.5	Sustainable Business Model in Firm Level.....	7
2.6	Sustainable Business model in the System Level	7
2.7	Battery Recycling.....	8
2.8	Tensions	10
2.8.1	Tension 1: Value Creation vs Value Capture	10
2.8.2	Tension 2: Mutual Value vs Individual Value.....	11
2.8.3	Tension 3: Gaining value vs Losing Value.....	11
2.9	Analytical Framework.....	11
3	Research Methodology	13
3.1	Research Method.....	13
3.2	Research Approach	13
3.3	Research Design.....	13
3.3.1	Presentation of the case study process.....	14
3.3.2	Case Selection and the Data Source.....	15
3.3.3	Data Collection and Analysis.....	16
3.3.4	Limitation of the Research Method	16
3.4	Quality of the Research.....	16
4	Empirical Findings	18
4.1	Case Study 1.....	18

4.1.1	The Introduction of the Case.....	18
4.1.2	Value Creation and Delivery	19
4.1.3	Value Capture	20
4.1.4	Regulatory Environment around Redwood Materials	21
4.2	Case Study 2.....	25
4.2.1	Introduction to Northvolt	25
4.2.2	Value Creation and Delivery	26
4.2.3	Value Capture	27
4.2.4	Hydrovolt-Revolt's Regulatory Environment.....	27
4.3	Case Study 3.....	28
4.3.1	Introduction to Sungeel Hitech	28
4.3.2	Value Creation and Delivery	29
4.3.3	Value Capture	30
4.4	Sungeel's Regulatory Environment	31
4.5	Summary of three cases.....	32
4.6	Indonesia	32
	Introduction to Indonesia's Battery Front	32
5	Discussion.....	36
5.1	What ensure the survival of the Battery Recycling in the Comparable Case Studies? RQ1.1 36	
5.2	Where are the key tensions in the business model of the chosen case studies? RQ1.2 38	
5.3	What is the interplay between the battery recycling initiatives and the legal Environment in the three chosen case studies? RQ1.3.....	39
5.4	What are the value creation and value capture potential of battery recycling businesses can be seen in Indonesia? RQ2.1.....	41
5.5	To what extent are there tensions and challenges from other cases visible in the lithium-ion batteries recycling in Indonesia? RQ2.2	43
5.6	What is the interplay between the potential battery recycling investment and the Indonesian system? RQ2.3	44

RQ: To what extent is a system conducive to battery recycling businesses emerging in

Indonesia?.....	45
6 Conclusion and Recommendation.....	48
6.1 Conclusion Remark.....	48
6.2 Policy Recommendation	48
6.3 Limitations and Prospects for further research	50
Reference	51
Appendix.....	55

List of Figure

Figure 1 Structure of the Thesis.....	3
Figure 2Theoretical Background and Concept Flow	4
Figure 3The Illustration of System-Based Sustainable Business Model (Stubbs & Cocklin, 2008)	8
Figure 4 Tensions from the Theoretical Aspect.....	10
Figure 5 Research Presentation Process Flowchart	14
Figure 6 Redwood Materials Activity System Value Mapping.....	19
Figure 7 Northvolt Activity System Mapping	26
Figure 8 SungeelHT Activity System Value Mapping	29
Figure 9 Mapping of Indonesia's Battery Ecosystem Findings	35

List of Table

Table 1Criteria for Validating the Quality of Research(Yin.,2014)	17
Table 2 Relevant Policies and Law for Redwood Materials.....	22
Table 3 Policy Recommendation for Stakeholders and Intervention Area in Indonesia	48
