

TABLE OF CONTENTS

ACKNOWLEDGEMENT	i
STATEMENT OF AUTHENTICITY	ii
FOREWORD	iii
TABLE OF CONTENTS	iv
LIST OF TABLES	vii
TABLE OF FIGURES	viii
ABSTRACT	ix
1. INTRODUCTION	1
1.1 Background	1
1.1.1 Environmental Issues	3
1.1.2 Energy Resource Condition of Indonesia	4
1.1.3 Demand and Supply condition of Electricity in Indonesia	6
1.1.4 The Potential of Solar Energy in Indonesia	8
1.1.5 How rooftop solar has developed?	11
1.1.6 Benefits of Renewables Energy and Rooftop Solar	12
1.1.7 Covid-19 and the Energy Sector	14
1.1.8 Government Attempts and Supports to encourage the adoption of rooftop solar	16
1.2 Problem Statement	20
1.3 Research Questions	22
1.4 Research Objective	22
1.5 Research Contribution	23
1.6 Research Scope	24
1.7 Writing System	25
2. LITERATURE REVIEW	26
2.1 Literature Review	26
2.1.1 Pro-Environmental Behaviors	26
2.1.2 Electricity Policies in Indonesia	30
2.1.3 Government incentive and rooftop PV installation intention	35
2.2 Previous Studies	37
2.3 Research Framework	53
2.3.1 Engel, Kollat, and Blackwell Model (EKB Model)	53
2.3.2 Application of EKB model in the current research	59

3. RESEARCH METHODS	59
3.1 Research Design	59
3.1.1 Measurement Questions	60
3.2 Data Collection Method	61
3.2.1 The Sampling Design	62
3.3 Research Instruments	64
3.4 Data Analysis Method	64
3.4.1 Reliability and Validity	65
3.5 Case Profile	66
3.5.1 Summary of the Research Case	66
4. RESULTS AND DISCUSSIONS	69
4.1 Description of the Data	69
4.1.1 Demographic Distribution	70
4.1.2 Awareness of Solar Energy	73
4.1.3 Prior Interest in the Environment and Lifestyle	74
4.1.4 Interest in adoption of Rooftop Solar Panels	75
4.1.5 Perspective on the Rooftop solar Panels	76
4.1.6 Profile and summary of the Interview Respondents	77
4.2 Discussions	80
4.2.1 Overview	80
4.2.2 Perspective of residents on the rooftop solar panel	81
4.2.2.1 Information Input	81
4.2.2.2 Information Processing	83
4.2.2.3 Decision Process	84
4.2.2.4 Decision Variables	89
4.2.2.5 External Factors	90
4.2.3 Summary of the findings and comparison with the previous studies	92
5. CONCLUSION	96
5.1 Conclusion	96
5.2 Implication	98
5.2.1 Theoretical Implications	98
5.2.2 Practical Implications	100
5.3 Limitations	102
5.4 Suggestions/Recommendations	103
BIBLIOGRAPHY	105

APPENDIX	113
Appendix 1. Questionnaires for surveys	113
Appendix 2. Survey Analysis	122
Appendix 3 Interview List of Questions	123
A. Interview with Stakeholder (Customers)	123
B. Interview with Insiders	126
C. Written Interview	129
Appendix 4 Interview Analysis	133
A. Interview Transcripts	133
B. Interview Analysis	157

LIST OF TABLES

Table 2.1 Previous Studies	37
Table 4.1 Demographic Profile of the Respondents	71
Table 4.2 Description of Information Assessment by the Respondents	73
Table 4.3 Description of the relation between respondent's lifestyle and purchase rate	74
Table 4.4 Description of the intention to adopt the rooftop solar panels of respondents	75
Table 4.5 Profile of the Interviewees	78
Table 4.6 Data summary of the Interview responses	79
Table 4.7 Comparison of Non-consumers and consumers based on the EKB decision making process.	92

LISTS OF FIGURES

Figure 2.1 Five Stages of the Decision-Making Process in the EKB Model	54
Figure 3.1 Research Design	60
Figure 3.2 Sampling Design in Research	63
Figure 4.1 Pie Chart for Solar Energy Awareness of the Respondents	73
Figure 4.2 Pie Chart for Solar Energy Knowledge of the Respondents	74
Figure 4.3 Pie Chart for Rooftop Solar Awareness of the Respondents	76
Figure 4.4 Display of the Rooftop Solar Awareness by the Respondents	77
Figure 4.5 Pie Chart for Rooftop Solar Lifetime Knowledge of the Respondents	77
