Introduction. This research was conducted to design a business model and analyze the economic feasibility of the Dalamruma.com site, utilizing the nine elements of the business model canvas: customer segments, value propositions, channels, customer relationships, revenue sources, key resources, key activities, key partners, and cost structure.

The research method employed was a descriptive qualitative approach, involving interviews, as well as quantitative methods such as surveys and financial feasibility analysis. This methodology aimed to ascertain the behavior and interests of potential buyers when purchasing furniture online.

Results and Discussion. The business model canvas of the Dalamruma.com website offers services that cater to the needs of small and medium-sized enterprises (SMEs), specifically furniture crafters, while also providing a convenient shopping experience for buyers looking for furniture. Through the Dalamruma.com website, furniture crafters who are SMEs have the opportunity to sell their wide range of furniture online. When a buyer makes a transaction on the Dalamruma.com website, the dedicated expedition team ensures that the furniture is delivered to the buyer's specified address.

Conclusion and Suggestion. The Dalamruma.com website aims to facilitate online shopping for SMEs furniture crafters by providing furniture delivery distribution services and acting as an intermediary between customers and furniture crafters. Based on the findings of the economic feasibility analysis, the Net Present Value (NPV) of Rp 291,883,854, Internal Rate of Return (IRR) of 35%, and Payback Period (PP) of two years were obtained. These calculations affirm the viability of this business.
