| PERNYATAAN BEBAS PLAGIASI .....                               | iii   |
| PRAKATA.....  | iv    |
| DAFTAR ISI.....   | v     |
| DAFTAR GAMBAR .....   | xii   |
| DAFTAR TABEL.....   | xv    |
| DAFTAR STANDAR YANG DIGUNAKAN.....                            | xxii  |
| INTISARI .....  | xxiii |
| <i>ABSTRACT</i> .....   | xxiv  |
| BAB I PENDAHULUAN.....  | 1     |
| 1.1. Latar Belakang .....                                     | 1     |
| 1.2. Tinjauan Pustaka .....                                   | 2     |
| 1.3. Analisis Pasar .....                                     | 11    |
| 1.4. Lokasi Pabrik.....                                       | 14    |
| BAB II DESKRIPSI PROSES.....                                  | 19    |
| BAB III SPESIFIKASI MATERIAL .....                            | 21    |
| 3.1. Bahan Baku .....   | 21    |
| 3.2. Produk Utama.....  | 21    |
| 3.3. Bahan Baku Pendukung .....                               | 22    |
| BAB IV DIAGRAM ALIR KUALITATIF, KUANTITATIF, DAN PEFD.....    | 24    |
| BAB V NERACA MASSA .....                                      | 27    |
| 5.1. Neraca Massa Keseluruhan .....                           | 27    |
| 5.2. Neraca Massa Setiap Alat .....                           | 27    |
| BAB VI NERACA PANAS.....                                      | 31    |
| 6.1 Neraca Panas Overall .....                                | 31    |
| 6.2 Neraca Panas Tiap Alat .....                              | 32    |
| BAB VII SPESIFIKASI ALAT.....                                 | 37    |
| 7.1 Tangki Penyimpanan Stiren Monomer (TP-01).....            | 37    |
| 7.2 Tangki Penyimpanan <i>Ethylbenzene</i> (TP-02).....       | 37    |
| 7.3 Tangki Penyimpanan <i>Benzoyl peroxide</i> (BIN-01) ..... | 38    |
| 7.4 Tangki Penyimpanan Polistiren (SILO-01).....              | 38    |
| 7.5 <i>Mixer</i> (M-01).....                                  | 39    |
| 7.6 <i>Mixer</i> (M-02).....                                  | 40    |

|                               |   |    |
|-------------------------------|---|----|
| 7.7                           | <i>Heat Exchanger</i> (HE-01) .....                     | 40 |
| 7.8                           | <i>Heat Exchanger</i> (HE-02) .....                     | 41 |
| 7.9                           | <i>Heat Exchanger</i> (HE-03) .....                     | 42 |
| 7.10                          | <i>Heat Exchanger</i> (HE-04).....                      | 43 |
| 7.11                          | <i>Heat Exchanger</i> (HE-05).....                      | 44 |
| 7.12                          | <i>Heat Exchanger</i> (HE-06).....                      | 45 |
| 7.13                          | Reaktor Alir Tangki Berpengaduk (R-01).....             | 47 |
| 7.14                          | <i>Belt Conveyor</i> (BC-01).....                       | 47 |
| 7.15                          | <i>Hopper</i> (H-01) .....                              | 48 |
| 7.16                          | <i>Hopper</i> (H-02) .....                              | 48 |
| 7.17                          | <i>Flash Drum</i> (FD-01).....                          | 49 |
| 7.18                          | <i>Flash Drum</i> (FD-02).....                          | 49 |
| 7.19                          | <i>Cyclone</i> (CY-01).....                             | 50 |
| 7.20                          | Filter (F-01) .....                                     | 50 |
| 7.21                          | <i>Extruder</i> (EX-01).....                            | 51 |
| 7.22                          | <i>Expansion Valve</i> (EV-01).....                     | 51 |
| 7.23                          | <i>Accumulator</i> (AC-01).....                         | 52 |
| 7.24                          | <i>Accumulator</i> (AC-02).....                         | 52 |
| 7.25                          | Pompa (P-01).....                                       | 53 |
| 7.26                          | Pompa (P-02).....                                       | 53 |
| 7.27                          | Pompa (P-03).....                                       | 54 |
| 7.28                          | Pompa (P-04).....                                       | 55 |
| 7.29                          | Pompa (P-05).....                                       | 56 |
| 7.30                          | Pompa (P-06).....                                       | 57 |
| 7.31                          | Pompa (P-07).....                                       | 57 |
| 7.32                          | Pompa (P-08).....                                       | 58 |
| 7.33                          | Pompa (P-09).....                                       | 59 |
| BAB VIII UTILITAS .....       |   | 60 |
| 8.1.                          | Unit Penyedia dan Pengolahan Air .....                  | 60 |
| 8.2.                          | Unit Pembangkit Uap.....                                | 71 |
| 8.3.                          | Unit Penyedia Udara .....                               | 72 |
| 8.4.                          | Unit Pengolahan Limbah.....                             | 82 |
| 8.5.                          | Unit Pembangkit dan Pendistribusian Tenaga Listrik..... | 86 |
| BAB IX TATA LETAK PABRIK..... |   | 90 |

|                                  |  |     |
|----------------------------------|--|-----|
| BAB X                            | PERTIMBANGAN ASPEK <i>SAFETY, HEALTH, AND ENVIRONMENT</i> .....            | 94  |
| 10.1.                            | Manajemen <i>Safety, Health, and Environment</i> .....                     | 94  |
| 10.2.                            | Struktur Organisasi Manajemen <i>Safety, Health, and Environment</i> ..... | 108 |
| 10.3.                            | Identifikasi <i>Hazard</i> Bahan dan Potensi Paparan Bahan Kimia .....     | 111 |
| 10.4.                            | Identifikasi <i>Hazard</i> Limbah Pabrik .....                             | 123 |
| 10.5.                            | Identifikasi <i>Hazard</i> Proses dan Peralatan .....                      | 130 |
| 10.6.                            | <i>Process Hazard Analysis</i> Metode HAZOP .....                          | 160 |
| BAB XI                           | MANAJEMEN DAN ORGANISASI PERUSAHAAN .....                                  | 186 |
| 11.1.                            | Bentuk Perusahaan .....  | 186 |
| 11.2.                            | Struktur Organisasi .....  | 187 |
| 11.3.                            | Tugas dan Wewenang Setiap Jabatan .....                                    | 190 |
| 11.4.                            | Pembagian Jam Kerja Karyawan .....   | 199 |
| 11.5.                            | Perhitungan Jumlah Operator .....  | 200 |
| 11.6.                            | Penggolongan Gaji Karyawan .....   | 202 |
| 11.7.                            | Kesejahteraan Sosial Karyawan .....  | 203 |
| 11.8.                            | Manajemen Produksi .....   | 205 |
| BAB XII                          | ANALISIS EKONOMI .....   | 207 |
| 10.1.                            | Modal Tetap ( <i>Fixed Capital</i> ) .....                                 | 209 |
| 10.2.                            | Biaya Produksi ( <i>Manufacturing Cost</i> ) .....                         | 223 |
| 10.3.                            | Modal Kerja ( <i>Working Capital</i> ) .....                               | 224 |
| 10.4.                            | Pengeluaran Umum ( <i>General Expense</i> ) .....                          | 224 |
| 10.5.                            | Analisis Keuntungan .....  | 225 |
| 10.6.                            | Analisis Kelayakan .....   | 226 |
