CHAPTER III. RESEARCH METHODOLOGY	44
3.1. Place and Time of Research	44
3.2. Materials and Methods	44
3.2.1. Materials	44
3.2.2. Instruments	47
3.3. Research Procedures	48
3.3.1. Experimental Outline	48
3.3.2. Biometrical Characteristics Measurement	49
3.3.3. Color Measurement	50
3.3.4. Texture Measurement	50
3.3.5. Sample Preparation for HPLC	51
3.3.5.1. Freeze Drying	51
3.3.5.2. Supernatant Extraction (AIS Method)	52
3.3.6. Sugar Analysis	53
3.3.7. Organic Acid Analysis	54
3.3.8. Statistical Analysis	55
3.4. Experimental Design	56
CHAPTER IV. RESULTS AND DISCUSSIONS	58
4.1. Changes in Physical Attributes of Strawberry during Ripening at Different Harvest Times	58
4.1.1 Color	58
4.1.2 Texture	66
4.2. Changes in Chemical Composition of Strawberry during Ripening at Different Harvest Times	65
4.2.1. Sugar Content	65
4.2.2. Organic Acid Content	74
4.3. Different Harvest Times affecting the Overall Characteristics of Strawberry on Different Stages of Ripening	82
4.4. Discussions	87
CHAPTER V. CONCLUSION AND RECOMMENDATION	92
5.1. Conclusion	92
5.2. Recommendation	92
BIBLIOGRAPHY	94
SUPPORTING INFORMATION	122
