

## DAFTAR ISI

|                                                           |      |
|-----------------------------------------------------------|------|
| HALAMAN PENGESAHAN .....                                  | iii  |
| PERNYATAAN KEASLIAN PROYEK AKHIR .....                    | iv   |
| KATA PENGANTAR.....                                       | v    |
| DAFTAR ISI .....                                          | vii  |
| DAFTAR GAMBAR.....                                        | x    |
| DAFTAR TABEL .....                                        | xiii |
| BAB I PENDAHULUAN .....                                   | 1    |
| 1.1 Latar Belakang .....                                  | 1    |
| 1.2 Rumusan Masalah.....                                  | 2    |
| 1.3 Tujuan Penelitian .....                               | 3    |
| 1.4 Batasan Masalah .....                                 | 3    |
| 1.5 Manfaat Penelitian .....                              | 3    |
| 1.6 Sistematika Penulisan .....                           | 4    |
| BAB II LANDASAN TEORI .....                               | 5    |
| 2.1 Tinjauan Pustaka.....                                 | 5    |
| 2.2 Dasar Teori .....                                     | 8    |
| 2.2.1 Jahe .....                                          | 8    |
| 2.2.2 Minyak Atsiri Jahe .....                            | 12   |
| 2.2.3 Electronic Nose.....                                | 13   |
| 2.2.4 Sensor <i>Metal Oxide Semiconductor</i> (MOS) ..... | 14   |
| 2.2.5 Sensor TGS.....                                     | 14   |
| 2.2.6 Sensor MQ.....                                      | 20   |
| 2.2.7 Manipulasi <i>Baseline</i> .....                    | 24   |
| 2.2.8 Ekstraksi Fitur .....                               | 25   |
| 2.2.9 PCA .....                                           | 27   |
| 2.2.10 <i>Machine Learning</i> .....                      | 28   |
| 2.2.11 Ensemble Learning.....                             | 28   |

|                                     |                                                       |    |
|-------------------------------------|-------------------------------------------------------|----|
| 2.2.12                              | Boosting.....                                         | 29 |
| 2.2.13                              | Bagging.....                                          | 31 |
| 2.2.14                              | Confusion Matrix.....                                 | 32 |
| 2.2.15                              | Cross Validation .....                                | 33 |
| BAB III METODOLOGI PENELITIAN ..... |                                                       | 34 |
| 3.1                                 | Waktu dan Tempat Penelitian.....                      | 34 |
| 3.2                                 | Alat dan Bahan Penelitian.....                        | 34 |
| 3.2.1                               | Alat Penelitian .....                                 | 34 |
| 3.2.2                               | Bahan Penelitian .....                                | 37 |
| 3.3                                 | Metode Penelitian .....                               | 38 |
| 3.3.1                               | Pra Penelitian.....                                   | 39 |
| 3.3.2                               | Akuisisi Data .....                                   | 39 |
| 3.3.3                               | Manipulasi <i>Baseline</i> .....                      | 40 |
| 3.3.4                               | Ekstraksi Fitur .....                                 | 40 |
| 3.3.5                               | Pengenalan Pola.....                                  | 41 |
| 3.3.6                               | Pra-Pemrosesan Data.....                              | 41 |
| 3.3.7                               | Klasifikasi.....                                      | 41 |
| 3.3.8                               | Evaluasi Model .....                                  | 42 |
| 3.3.9                               | Penyusunan Laporan .....                              | 42 |
| 3.4                                 | Perancangan Sistem .....                              | 42 |
| 3.4.1                               | Perancangan Sistem E-nose.....                        | 42 |
| 3.5                                 | Analisis Data.....                                    | 44 |
| 3.5.1                               | Metode Analisis Data .....                            | 44 |
| 3.6                                 | Implementasi Program.....                             | 44 |
| 3.6.1                               | Implementasi Program Manipulasi <i>Baseline</i> ..... | 44 |
| 3.6.2                               | Implementasi Program Ekstraksi Fitur .....            | 45 |

|                     |                                                   |    |
|---------------------|---------------------------------------------------|----|
| 3.6.3               | Program Preprocessing Data .....                  | 47 |
| 3.6.4               | Implementasi Program PCA.....                     | 51 |
| 3.7                 | Klasifikasi Model.....                            | 52 |
| 3.7.1               | Program Klasifikasi <i>GradientBoosting</i> ..... | 53 |
| 3.7.2               | Program Klasifikasi <i>AdaBoost</i> .....         | 54 |
| 3.7.3               | Program Klasifikasi Random Forest .....           | 55 |
| 3.7.4               | Program Perbandingan Akurasi Model .....          | 56 |
| 3.7.5               | Program Confusion Matrix.....                     | 56 |
| BAB IV              | HASIL DAN PEMBAHASAN.....                         | 58 |
| 4.1                 | Hasil Akuisisi Data .....                         | 58 |
| 4.2                 | Hasil Program Manipulasi Baseline .....           | 60 |
| 4.3                 | Ekstraksi Fitur.....                              | 62 |
| 4.3.1               | Fitur Daya Spektrum Frekuensi 1 dan 2.....        | 63 |
| 4.3.2               | Fitur Skewness.....                               | 64 |
| 4.3.3               | Fitur Kurtosis.....                               | 65 |
| 4.3.4               | Fitur Standar Deviasi .....                       | 66 |
| 4.4                 | Hasil <i>Preprocessing</i> Data .....             | 67 |
| 4.4.1               | Hasil Persebaran Data PCA.....                    | 69 |
| 4.5                 | Hasil dan Pembahasan Klasifikasi .....            | 70 |
| 4.6                 | Hasil dan Pembahasan GUI .....                    | 80 |
