ABSTRACT

The multidimensional crisis that hit Indonesia needs to be addressed immediately, including the inculcation of knowledge about Nationalism and the inculcation of an Attitude of Nationalism in Indonesian society. The existing problem is that there is a crisis of a sense of nationalism, the solution is that the Regional Command Apparatus prepares a strategy in order to instill a National Insight by implementing effective and efficient programs by implementing state defense activities. The regional command is a national defense tool that is prepared as a force in the operation of national resilience in the regional sector. The purpose of this research is to streamline public knowledge of the importance of national unity and unity, to make it easier to take good steps to make it more effective and cooperative. The next action is to provide education from an early age, starting from young people who are easily indoctrinated.

The research method used is qualitative through naturalistic paradigm. The determination of the focus of this research is based on the awareness to explore the meaning of national insight through state defense activities for SMK students in Malang Regency with the following research focuses: 1) The role and success of Yon Zipur 5 Kepanjen in the national insight program through state defense activities for SMK students in the Regency Malang, 2) Obstacles faced in implementing the national insight program through state defense activities for SMK students in Malang Regency. The analysis stages carried out were: 1) Intentional Analysis, 2) Epoche, and 3) Eidetic reduction

The results of the research on the implementation of the national insight program through state defense activities for SMK students in Malang Regency, namely: show that Yon Zipur 5 Kepanjen's role in implementing the national insight program through state defense activities for SMK students in Malang Regency, namely as instructors, supervisors, facility providers. Indications of the success of the national insight program running smoothly are shown by several things, namely the success of the national insight program through state defense activities for SMK students in Malang Regency so that students' spirit of nationalism increases, students are more enthusiastic about going to school and excelling, students can appreciate and respect differences, and students obey the rules that apply in school. The obstacles faced in implementing the national insight program through state defense activities for SMK students in Malang Regency are the low student spirit of nationalism, bad influences from the social environment, and students preferring foreign cultures.
