

<b>Acknowledgement</b> .....	ii
<b>Abstracts</b> .....	iii
<b>Résumé</b> .....	v
<b>Abstrak</b> .....	vii
<b>List of figures</b> .....	ix
<b>List of tables</b> .....	xi
<b>Table of contents</b> .....	xii
<b>Introduction</b> .....	1
<b>Chapter 1 State of the art</b> .....	3
Taxonomy classification of <i>Candida</i> spp .....	3
General overview of <i>Candida</i> spp .....	5
Morphology characteristics of <i>Candida albicans</i> .....	5
Morphology caharacteristics of non-albicans <i>Candida</i> ( <i>C. parapsilosis</i> , <i>C. krusei</i> , and <i>C. glabrata</i> ) species .....	8
Habitat of commensal <i>Candida albicans</i> and non-albicans <i>Candida</i> .....	9
Medical aspects and pathogenesis of <i>Candida</i> spp .....	10
General data and pathogenicity factors .....	10
Conventional antifungal agents active against <i>Candida</i> sp .....	15
<i>Candida</i> spp. biofilms .....	18
General overview of biofilms .....	18
Formation of biofilm, interaction, and communication of yeasts inside biofilm .....	19
Polymicrobial interactions : dual <i>Candida albicans-Staphylococcus aureus</i> biofilm .....	23
Resistance mechanisms associated with the biofilm lifestyle .....	24
Tolerance mechanisms associated with the biofilm lifestyle .....	26
Invasive plants .....	27
Definition and negative impacts of invasive plants .....	27
Positive aspects of invasive plants .....	29
French invasive plants .....	30
<i>Reynoutria japonica</i> .....	31

<i>Ambrosia artemisiifolia</i> .....	34
<i>Buddleia davidii</i> .....	37
<i>Robinia pseudoacacia</i> .....	40
<i>Baccharis halimifolia</i> .....	43
Indonesian Invasive Plants .....	46
<i>Mimosa pudica</i> .....	46
<i>Lantana camara</i> .....	50
<i>Acacia mangium</i> .....	53
<i>Ageratina riparia</i> .....	56
<i>Mikania micrantha</i> .....	58
General Objectives .....	62
<b>Chapter 2 Materials and Methods</b> .....	63
Plant materials collection .....	63
Extraction and fractionation of plant materials .....	64
Maceration methods assisted or not by sonication .....	64
Hydrodistillation method .....	64
Liquid-liquid fractionation .....	65
Detection and identification of phytochemicals .....	65
Liquid Chromatography coupled to tandem Mass Spectrometry (LC MS/MS) analysis .....	65
High resolution mass spectrometry (HR-MS) analysis .....	66
Gas chromatography-mass spectrometry (GC-MS) analysis .....	66
Determination of antifungal and antibiofilm activities .....	67
Strains .....	67
Preparation of samples .....	67
Antifungal activity: Broth microdilution method .....	68
Antimaturation and Antibiofilm activities assays .....	69
Antimaturation and antibiofilm tests against <i>Candida</i> species: measurement of metabolic activity .....	69
Antibiofilm test against dual biofilms ( <i>S. aureus</i> and <i>C. albicans</i> ): biomass quantification .....	71
Morphological observation of <i>C. albicans</i> under scanning electron microscopy (SEM) .....	72
Determination of inhibitory activity of <i>Candida albicans</i> phospholipases .....	73

Cytotoxicity evaluation.....	73
Statistical analysis.....	75
<b>Chapter 3 Results</b> .....	<b>76</b>
<b>Results obtained with invasive plants harvested in France</b> .....	<b>76</b>
Extracts .....	76
The yields.....	77
Effects on planktonic cells, and 24h old biofilm of <i>C. albicans</i> ATCC 28367 .....	78
Essential oil obtained from <i>Baccharis halimifolia</i> leaves .....	79
Yield and chemical composition .....	79
Effects on planktonic cells, biofilm maturation phase and 24h old biofilm of <i>C. albicans</i> .....	80
Effects on maturation phase and 24h old biofilm of clinical isolates of <i>C. albicans</i> .....	80
Effects on maturation phase and 24h old biofilm of other species of <i>Candida</i> .....	81
Activity against a dual-species biofilm ( <i>C. albicans</i> + <i>S. aureus</i> ) .....	83
Effects on HeLa cell line .....	84
Compounds of essential oil of <i>B. halimifolia</i> leaves .....	84
Effects of pure compounds on planktonic cells of <i>C. albicans</i> ATCC 28367 and other species of <i>Candida</i> .....	85
Effects of pure compounds against maturation phase and 24h old biofilm of <i>C. albicans</i> ATCC 28367 .....	85
Effects on maturation phase and 24h old biofilm of clinical isolates of <i>C. albicans</i> .....	88
Activity on maturation phase and 24h old biofilm of other species of <i>Candida</i> .....	89
Activity on HeLa cell line .....	89
<b>Results obtained with invasive plants harvested in Indonesia</b> .....	<b>91</b>
Extracts .....	91
The yields.....	91
Screening of antifungal activity of studied Indonesian extracts against planktonic cells of <i>Candida albicans</i> .....	91
Screening of antibiofilm activity of studied Indonesian extracts against <i>C. albicans</i> ATCC 10231 .....	92

Effects of the extract of <i>Mimosa pudica</i> aerial parts against phospholipases activity .....	94
Phytochemical analysis of extract ethanol of <i>M. pudica</i> roots .....	94
Fractions .....	95
The yields .....	96
Activity of fractions of <i>Lantana camara</i> leaves against <i>C. albicans</i> ATCC 10231 biofilm .....	96
Activity of fractions from aerial part of <i>M. pudica</i> against <i>C. albicans</i> ATCC 10231 biofilm .....	97
Activity of ethyl acetate fraction of <i>M. pudica</i> aerial part against <i>C. albicans</i> planktonic cells.....	98
Activity of ethyl acetate fraction of <i>M. pudica</i> aerial parts against <i>clinical isolates of C. albicans biofilm</i> .....	98
Phytochemical analysis of ethyl acetate fraction of <i>M. pudica</i> leaves using HR-MS.....	99
Scanning electron microscopy of 24h old biofilm <i>C. albicans</i> ATCC 10231 treated by ethyl acetate fraction of <i>M. pudica</i> leaves .....	100
Cytotoxicity Activity .....	100
<b>Chapter 4 Discussions</b> .....	<b>106</b>
General conclusions and Prospects .....	118
References .....	120
Appendices.....	144
