FOREWORDS

I would like to express my deepest gratitude to all the individuals who have contributed to the creation of this undergraduate thesis. I am sincerely thankful to the following individuals, without whom this accomplishment would not have been possible:

1. The author's parents, Dr.Ir.Hj. Sutriyono Edi, MBA and Ir. Nidhianti Larasati M.Mark.Comm, and family– whom the author owes a debt of gratitude to them for their unwavering support, love, and encouragement throughout their whole life. Their belief in the author's abilities and their sacrifices have been the foundation of the author's success.
2. Lukman Heryawan, S.T., M.T. Ph.D. – The author is incredibly grateful for the exceptional guidance and knowledge provided by the author's thesis supervisor. His expertise and support were instrumental in shaping this thesis and pushing it to new heights.
3. I would like to express my heartfelt gratitude to Drs. Suprpto, M.I.Kom., for his guidance and support throughout my academic journey as my supervisor. His expertise, dedication, and commitment have shaped the author's academic development.
4. The academic staff of the Computer Science Study Program at Gadjah Mada University's Faculty of Mathematics and Natural Sciences – the author extends heartfelt appreciation to the entire academic staff for their dedication and commitment to fostering a rich learning environment. Their teachings and mentorship have greatly influenced the author's academic growth.
5. Special thanks to Adam Fiadi, Fabian Suhidin, Farabi Dharma, Handaru Ramadhan, Syauqi Abdurrahman, Rizky Ramadhan, and many others, as they have supported the author throughout the journey of completing their thesis.
6. To the dearest Vivian Maharani Dewi Widjanarko, the author thanks you especially for all the continuous and nonstop support and motivation that helped the author throughout the finishing of the thesis.
7. Others who contributed to this thesis – the author would like to thank all the individuals who supported this thesis, including Computer Science friends at UGM. Your feedback, assistance, and encouragement have been invaluable in developing and refining this work.

Once again, the author expresses the deepest appreciation to all who have contributed to this thesis, directly or indirectly. Your support and involvement have made a lasting impact on the author's academic journey.
