

TABLE OF CONTENT

FOREWORDS	ii
TABLE OF CONTENT.....	iii
LIST OF TABLES	vi
LIST OF FIGURES	vi
LIST OF ABBREVIATIONS	viii
ABSTRACT	ix
CHAPTER I INTRODUCTION.....	1
1.1 Research Background.....	1
1.2 Research Problem	5
1.3 Research Scope	6
1.4 Research Objective.....	7
1.5 Research Benefits.....	8
CHAPTER II LITERATURE REVIEW	9
CHAPTER III BASIC THEORY	16
3.1 Warehouse Receipt System	16
3.1.1 Collateral management theory	16
3.1.2 Warehouse receipts As Negotiable Instruments	17
3.1.3 Legal and regulatory frameworks	17
3.1.4 Warehouse Operator	18
3.1.5 Registration Center	19
3.1.6 Warehouse Receipt Issuance	19
3.2 Blockchain	21
3.2.1 Structure and How It Works.....	21
3.2.2 Consensus Algorithm	23
3.2.3 Benefits	26
3.3 Ethereum.....	27
3.3.1 Smart-Contracts	28
3.3.2 Application of Smart-Contracts.....	29
3.3.3 Technology and Supporting Tools.....	30
3.3.4 Types Of Networks	31

3.3.5	Gas Fee	32
3.3.6	Advantages and Disadvantages	33
3.4	Decentralized Applications	34
3.4.1	Architecture	35
3.4.2	Implementation	35
3.4.3	Non-Fungible Token	36
3.4.4	Use Cases of NFT'	37
3.4.5	NFT Minting.....	38
3.4.6	NFT Transfer of Ownership	38
3.5	Document Storage in The Network	38
3.5.1	Disadvantages of conventional cloud-storage.....	39
3.5.2	InterPlanetary File System (IPFS)	39
3.5.3	Document-sharing and privacy on IPFS	40
3.5.4	Integrating Decentralized Storage with Blockchain Networks	41
3.6	Web Application.....	41
CHAPTER IV RESEARCH METHODOLOGY		43
4.1	Research Description	43
4.2	Research Steps	43
4.2.1	Literature Review of Existing WRS and blockchain literature	44
4.2.2	Design.....	44
4.2.3	Development.....	44
4.2.4	Evaluation of the system.....	44
4.2.5	Completion of Report.....	45
4.3	System Architecture.....	45
4.4	Client-side Application	49
4.5	Smart-Contracts Modelling and Blockchain Network.....	51
4.6	Development Environment.....	52
4.7	Evaluation Scenario.....	53
CHAPTER V IMPLEMENTATION		58
5.1	System Development	58

5.1.1	Smart Contract Implementation	58
5.1.2	Smart Contract Deployment	70
5.1.3	Source Code Verification and Publication.....	72
5.1.4	Client-Side Implementation	75
5.1.5	Decentralized Storage	86
5.2	Running the System	88
5.2.1	Simulation of the System	89
5.3	System Usage Simulation	91
5.3.1	Connecting Account	91
5.3.2	Issuing Process	93
5.3.3	Setting Warehouse Owner	96
5.3.4	Warehouse Receipts	97
5.3.5	Transfer	99
5.3.6	Download Process	102
CHAPTER VI RESULTS AND DISCUSSION		104
6.1	Evaluation Results	104
6.2	Operational and Gas Fee Evaluation.....	106
6.3	Evaluation of Access Control and Document Privacy	109
6.4	Evaluation of System Decentralization Level	112
6.5	Advantages of Using Blockchain Vs. Traditional System	113
6.6	Disadvantages of Using Blockchain Vs. Traditional System	114
CHAPTER VII CONCLUSION		116
7.1	Conclusion	116
7.2	Future Works.....	117
REFERENCES.....		119
