Abstract	4
I Introduction	5
European Energy Exchange.....	6
Excise Duty Tax in The Netherlands	7
Composition of Gasoline Price	8
Gasoline Consumption and Effects	10
CO ₂ Historical Perspective	11
Other Efforts to Solve the Problem	12
Research Questions.....	13
Previous Studies	13
II Literature Review.....	19
Excise Duty Tax and Gasoline Price	27
Hypothesis	27
III Research Methodology	30
Variables	32
Relevance of the Variables	34
Descriptives of The Data	35
Central Bureau for Statistics.....	36
Vector Error Correction Model.....	37
Motivation of the Variables	38
Conduction of the Calculations.....	42
IV Results	46
Stationarity Test	47
Lag Length	48
Johansen Cointegration Test.....	49
VECM Regression.....	51
Impulse Response Function	53
Diagnostic Tests.....	53
Statement of the Main Findings And Limitations.....	56
V Conclusion	62
