**ABSTRAK**

Salah satu faktor kepuasan hubungan adalah adanya *love language*. Maka, penelitian bertujuan mengetahui pengaruh *love language* terhadap kepuasan hubungan pada 108 wanita berpacaran usia 20-40 tahun. Instrumennya ialah modifikasi skala *love language* dan *Relationship Assessment Scale*. Hasilnya, lima bentuk *love language* memiliki pengaruh secara bersamaan terhadap kepuasan hubungan asmara. Namun, secara parsial hanya *words of affirmation* dan *quality time*. Penelitian ini bermanfaat bagi masyarakat dalam mengetahui pentingnya *love language* dalam hubungan.

**ABSTRACT**

One factor in relationship satisfaction is the presence of a love language. So, the research aims to determine the effect of love language on relationship satisfaction in 108 dating women aged 20-40 years. The instruments are a modification of the love language scale and the Relationship Assessment Scale. As a result, five forms of love language have a simultaneous influence on romantic relationship satisfaction. However, partially only words of affirmation and quality time. This research is useful for society in knowing the importance of love language in relationships.
