| LIST OF TABLES                                       | ix   |
| LIST OF APPENDICES                                   | x    |
| ABSTRACT   | xi   |
| CHAPTER I INTRODUCTION                               | 1    |
| 1.1. Background                                      | 1    |
| 1.2. Problem Statements                              | 3    |
| 1.3. Research Objective                              | 3    |
| 1.4. Research Benefit                                | 4    |
| CHAPTER II LITERATURES REVIEW                        | 5    |
| 2.1. Natural Product                                 | 5    |
| 2.2.1 Secondary Metabolites                          | 6    |
| 2.2. Aromatic Ginger ( <i>Kaempferia galanga</i> L.) | 10   |
| 2.3. Isolation Compound                              | 11   |
| 2.4. Identification and Quantification Compound      | 13   |
| 2.3.1 Thin Layer Chromatography                      | 17   |
| 2.3.2 NMR Spectroscopy                               | 19   |
| 2.5. Hypothesis                                      | 21   |
| CHAPTER III METHOD                                   | 21   |
| 3.1 Materials  | 22   |
| 3.2 Equipment  | 22   |
| 3.3 Research Time and Place                          | 23   |
| 3.4 Experimental Scheme                              | 23   |

|                                   |   |    |
|-----------------------------------|---|----|
| 3.4.1.                            | Preparation Sample                            | 21 |
| 3.4.2.                            | Isolation and Purification of Compound        | 22 |
| 3.4.3.                            | Analysis by Thin Layer Chromatography         | 24 |
| 3.4.4.                            | Analysis by NMR                               | 24 |
| CHAPTER IV RESULT AND DISCUSSIONS |   | 27 |
| 4.1.                              | Isolation of Secondary Metabolites            | 27 |
| 4.2.                              | Ethyl <i>p</i> -Methoxycinnamate (Compound 1) | 29 |
| 4.3.                              | Methyl <i>p</i> -Coumarate (Compound 2)       | 32 |
| 4.4.2.                            | methoxyphenol                                 | 35 |
| CHAPTER V CONCLUSIONS             |   | 37 |
| 5.1.                              | Conclusions                                   | 37 |
| 5.2.                              | Suggestions                                   | 38 |
| REFERENCES                        |   | 39 |
| APPENDICES                        |   | 48 |

## LIST OF FIGURES

|  |    |
|--|----|
| Figure 1. Example schematic for extraction, purification, and identification of possible metabolite mixtures from plants | 14 |
| Figure 2. <sup>1</sup> H Chemical shift ranges for carbon atoms in organic compounds                                     | 20 |
| Figure 3. Separating funnel of extract <i>Kaempferia galanga</i>   | 23 |
| Figure 4. Column chromatography scheme of <i>Kaempferia galanga</i>  | 25 |
| Figure 5. Structure of ethyl <i>p</i> -methoxycin  | 30 |
| Figure 6. Structure of methyl <i>p</i> -coumarate  | 33 |
| Figure 7. Structure of 2-methoxyphenol   | 36 |

## LIST OF TABLE

|  |    |
|--|----|
| Table 1. Classification of Secondary Metabolites based on chemical structure         | 7  |
| Table 2. <sup>1</sup> H (600Hz) NMR spectral data of Compound 1 in CDCl <sub>3</sub> | 32 |
| Table 3. <sup>1</sup> H (600Hz) NMR spectral data of Compound 2 in CDCl <sub>3</sub> | 32 |
| Table 4. <sup>1</sup> H (600Hz) NMR spectral data of Compound 3 in CDCl <sub>3</sub> | 35 |

## LIST OF APPENDICES

|            |   |    |
|------------|---|----|
| Appendix 1 | Isolation scheme of all compound isolated from<br><i>Kaempferia galanga</i> | 46 |
| Appendix 2 | Sample extract of <i>Kaempferia galanga</i>                                 | 46 |
| Appendix 3 | Separating funnel   | 47 |
| Appendix 4 | Column chromatography (solvent chloroform-ethyl acetate)                    | 47 |
| Appendix 5 | Supplementary data of compound 1  | 48 |
| Appendix 6 | Supplementary data of compound 2  | 50 |
| Appendix 7 | Supplementary data of compound 3  | 53 |
