Some of the steps that have been implemented include coaching through the tourism village communication forum, developing supporting tourism facilities and infrastructure, and implementing tourism village promotions. There are several driving factors, inhibiting factors, and obstacles in the development of Tanjung Tourism Village. The driving factors include the existence of natural wealth and local culture, community awareness and participation, income for the community, preservation of the existence of tourist villages, and local government support. The inhibiting factors include limited human resources and internal community conflicts. Barriers include a lack of innovation in tourist attractions and less than optimal promotion and marketing.
