

INTISARI

Implementasi pengaturan pengelolaan sampah di kota Bekasi yang belum efektif disebabkan ketidakberhasilan pengaturan pengelolaan sampah di kota Bekasi dalam menyelesaikan persoalan tersebut sehingga terdapat tiga tujuan yang dicapai yaitu pertama, mengkaji dinamika pengaturan pengelolaan sampah di kota Bekasi berdasarkan peraturan perundang-undangan yang berlaku. Kedua, menganalisis efektivitas pengaturan pengelolaan sampah berdasarkan Peraturan Perundang-undangan yang berlaku; dan ketiga merumuskan strategi kebijakan pengelolaan sampah yang efektif sesuai tujuan pengelolaan sampah di Kota Bekasi. Tulisan ini menggunakan metode penelitian yuridis-empiris dengan menggunakan pendekatan sosiologi hukum, pendekatan historis dan pendekatan perundang-undangan. Hasil penelitian disajikan dengan preskriptif analitis melalui metode wawancara mendalam (*indepth-interview*) untuk memperoleh bahan hukum primer serta didukung bahan hukum sekunder melalui studi literatur sehingga memperoleh hasil; 1. Dinamika peraturan pengelolaan sampah di kota Bekasi masih belum jelas karena kehilangan sejumlah momentum dalam mengakomodasi beberapa aturan penting. Baik dari segi formil maupun materiil disertai masalah kesalahan proses legislasi daerah. 2. Pelaksanaan pengaturan pengelolaan sampah berdasarkan ruang lingkup pembahasan kegiatan pengelolaan sampah belum efektif karena terdapat sejumlah kelemahan dengan berkaca pada faktor efektivitas hukum 3. Strategi hukum terhadap pengelolaan sampah diberikan pada tiap pembahasan kegiatan pengelolaan sampah.

Kata Kunci : Kota Bekasi, Pengaturan Pengelolaan Sampah, Dinamika Peraturan, Efektivitas Hukum, Strategi Hukum.

ABSTRACT

The implementation of waste management regulations in the city of Bekasi has not been effective due to the failure of waste management regulations in the city of Bekasi in resolving this problem to achieve three objectives, namely first to examine the dynamics of waste management arrangements in Bekasi City based on applicable laws and regulations. Second, analyze the effectiveness of waste management arrangements based on applicable laws and regulations; and third, formulate an effective waste management policy strategy according to the objectives of waste management in Bekasi City. This paper uses a juridical-empirical research method using a legal sociology approach, a historical approach and a legislative approach. The research results are presented in a prescriptive analytical manner using an in-depth interview method to obtain primary legal material and are supported by secondary legal material through literature study to obtain results; 1. The dynamics of the direction of waste management regulations in the city of Bekasi are still unclear because they have lost a number of momentum in accommodating several important regulations so that they are too visionary accompanied by problems with errors in the regional legislative process. 2. The implementation of waste management regulations based on the scope of discussion of waste management activities has not been effective because there are a number of weaknesses by reflecting on legal effectiveness factors. 3. Legal strategies for waste management are provided in each discussion of waste management activities.
