Pada skripsi ini, akan dibahas kekomutatifan ring prima jika diketahui beberapa kondisi yang melibatkan *generalized reverse derivation* dan center dari ring  $R$ . Secara khusus, akan diselidiki kekomutatifan ring prima  $R$  pada kondisi-kondisi yang melibatkan *generalized reverse derivation*, komutator, anti-komutator, dan *center* dari ring  $R$ .

In this undergraduate thesis, the commutativity of a prime ring will be discussed under certain conditions involving *generalized reverse derivations* and the center of the ring  $R$ . Specifically, the commutativity of a prime ring  $R$  will be investigated under conditions involving *generalized reverse derivations*, commutators, anti-commutators, and the center of the ring  $R$ .
