TABLE OF CONTENTS.....	2
LIST OF TABLES.....	6
LIST OF FIGURES	7
ABSTRACT	8
CHAPTER I	9
INTRODUCTION	9
1.1 Background	9
1.2. Problem Formulation.....	12
1.3. Objective.....	12
1.3.1. General Objective.....	12
1.3.2 Special Objective.....	12
1.4. Research Benefits.....	13
1.4.1. Theoretical Benefit.....	13
1.4.2. Practical Benefit.....	13
1.5 Research Authenticity	13
LITERATURE REVIEW	15
2.1. IVH.....	15
2.1.1. Definition.....	15
2.1.2. Epidemiology	16
2.1.3. Etiology	17
2.1.4. Clinical Manifestation	18
2.1.5. Pathogenesis.....	20
2.1.6. Diagnosis	22
2.1.7. Treatment/Management.....	23
2.2 Prematurity	25
2.2.1. Definition.....	25
2.2.2. Predictive factors.....	26
2.2.3. Complication.....	27
2.3. Gender	28
2.3.1. The Role of Gender as a predictive factor.....	28
2.3.2 Mechanisms Linking Gender to Intraventricular Hemorrhage.....	29

2.4 Gestational Age	30
2.4.1. Introduction to Gestational Age and intraventricular in Preterm Infants	30
2. 5 Birth weight	31
2.5.1. Introduction	31
2.5.2. The Relationship Between Birth Weight and NEC as predictive factor for Intraventricular Hemorrhage	31
2. 6. Necrotizing Enterocolitis	32
2.6.1. Introduction.....	32
2.6.2. Pathophysiology of Necrotizing Enterocolitis and Its Impact on Premature Infants.....	33
2.6.3. Correlation Between Necrotizing Enterocolitis and Intraventricular Hemorrhage Risk	34
2.7. Congenital disorder.....	35
2.7.1. Introduction to Congenital Disorders and Intraventricular Hemorrhage in Preterm Infants.....	35
2.7.2. Pathophysiology of Congenital Disorders and Its Impact on Premature Infants.....	35
2.7.3. The Relationship Between Congenital Disorders and the Incidence of Intraventricular Hemorrhage	36
2.8. Metabolic.....	37
2.8.1.Pathophysiology of Metabolic Disorders and Its Impact on Premature Infants.....	37
2.8.2. Correlation Between Metabolic Disorders and Intraventricular Hemorrhage Risk	38
2.9. Cardiovascular disorders	39
2.9.1. Pathophysiology of Cardiovascular Disorders and Its Impact on Premature Infants.....	39
2.9.2. Correlation Between Cardiovascular disorders and Intraventricular Hemorrhage Risk	40
2.10. Respiratory Disorders	41
2.10.1. Introduction.....	41
2.10.2 Correlation Between Respiratory Disorders and Intraventricular Hemorrhage Risk	41
2.11. hematologic.....	42
2.11.1. Pathophysiology of Hematologic Disorders and Its Impact on Premature Infants.....	42

2.11.2. Correlation Between Hematologic Disorders and Intraventricular Hemorrhage Risk	43
2.12. Sepsis	44
2.12.1. Introduction.....	44
2.12.2. Pathophysiology of Sepsis and Its Impact on Premature Infants	45
2.12.3. Correlation Between Necrotizing Enterocolitis and Intraventricular Hemorrhage Risk	45
2.13. Neonatal Seizures	46
2.13.1. Pathophysiology of Neonatal Seizures and Its Impact on Premature Infants.....	46
2.13.2. The Relationship Between Neonatal Seizures and Intraventricular Hemorrhage.....	47
2.14. Theoretical Framework	48
2.15. Conceptual Framework.....	49
2.16. Hypothesis.....	49
CHAPTER III	50
RESEARCH METHODS	50
3.1. Research Design.....	50
3.1.1. Strengths of Case Control Studies.....	50
3.1.2. Limitations of Case Control Studies.....	51
3.2. Location and Time of Research.....	52
3.3. Population and sample	52
3.3.1. Target Population	52
3.3.2. Accessible Population	52
3.3.3. Research Sample	52
3.3.1. Independent Variables	53
3.3.2. Dependent Variables.....	53
3.5. Operational Definition.....	53
3.6. Sampling Method	56
3.6.1. Sample Size	56
3.7. Selection Criteria.....	58
3.7.1. Inclusion Criteria.....	58
3.7.2. Exclusion Criteria.....	58
3.8. Equipment and Data Collection Method	59

3.8.1. Equipment.....	59
3.8.2. Data Collection Method	59
3.9. Data Analysis	59
3.9.1. Data processing.....	59
3.9.2. Statistical analysis	59
3.10. Research Ethics	59
3.11. Research Plot.....	60
CHAPTER IV.....	61
RESULTS AND DISCUSSION	61
4.1 Results.....	61
4.1.1. Flow chart of the study population	61
4.1.2. Subject Characteristics.....	62
4.1.3. Bivariate Analysis between predictive variables and outcome.....	63
4.1.4. Multivariate Analysis between predictive variables and outcome	64
4.2. Discussion	65
4.2.1. Prevalence of Mortality in Preterm Infants with Intraventricular Hemorrhage	65
4.2.2. Predictive factors Associated with Increased Incidence of Intraventricular Hemorrhage in Preterm Infants.....	66
4.2.3. Predictive factors of Intraventricular Hemorrhage Associated with Mortality in Preterm Infants	68
4.2.4 Clinical Significance vs. Statistical Significance in Predictive Factors of Mortality in Preterm Infants with IVH.....	70
4.3. Strengths and weaknesses of the research	71
4.3.1. Strengths	71
4.3.2. Weaknesses	72
CHAPTER V.....	75
CONCLUSION AND RECOMMENDATION	75
5.1. Conclusion.....	75
5.2. Recommendations	75
BIBLIOGRAPHY	77
APPENDIX	84

LIST OF TABLES

Table 1. Research authenticity	11
Table 2. Operational Definition	50
Table 3. Subject Characteristics with homogeneity test	62
Table 4. Bivariate Analysis between predictive variables and outcome.....	63
Table 5. Multivariate Analysis between predictive variables and outcome	64

LIST OF FIGURES

Figure 1. Theoretical framework	46
Figure 2. Conceptual framework	46
Figure 3. Research Design	48
Figure 4. Research Plot	57
Figure 4. <i>Flow chart of the study population</i>	58
