TABLE OF CONTENTS	viii
LIST OF NOTATION	x
ABSTRACT	xi
I INTRODUCTION	1
1.1 Background	1
1.2 Research Questions	2
1.3 Objectives and Benefits of the Research	3
1.4 Literature Review	3
1.5 Research Methods	4
1.6 Overview of the Thesis	5
II PRELIMINARIES	6
2.1 Measure Theory	6
2.2 Probability Theory	13
2.3 Random Variable	15
2.3.1 Independence and Expectation	18
2.3.2 Conditional Expectation	21
2.3.3 Moment Generating Function	24
2.3.4 Convergence of Probability Measures	25
2.4 Stochastic Process	26
2.5 Ruin Theory	28
2.5.1 Insurance	28
2.5.2 Collective Risk Model	29
2.5.3 Classical Risk Model	30
2.5.4 Some Existing Ruin Models	37
2.6 Complex Analysis	38
2.7 Laplace Transform	40
2.8 Integral Equation	44
III Modified Ruin Model	46
3.1 Terminology	46

3.2	Model Formulation	48
3.3	Gerber Shiu Function for $\kappa_{q,v}$ and κ	49
3.4	The Function $h_{r,CL}$ for Combination of Exponentials distributed Claims	58
3.5	The Functions $g_{r,+}$ and $g_{r,-}$ for $T \sim Erlang(n)$	70
3.6	Laplace Transforms of Ruin Models $\kappa_{q,v}$ and κ	77
3.7	Modified Ruin Probability	85
3.8	Numerical Illustration	86
IV	Calculation of Modified Ruin Probability	93
4.1	Alternative Method for calculating $\Psi(u)$	93
4.1.1	Probability that $\kappa_{q,z} = \infty$	95
4.1.2	The function $q \equiv 0$	98
4.1.3	Combination of Exponentials Distributed Claims	100
4.1.4	Erlang(n) Distributed Delay Period	105
4.2	Comparisan Between Two Methods	110
V	Discussion and Concluding Remarks	114
	BIBLIOGRAPHY	115
