

## DAFTAR ISI

|                                                                   |      |
|-------------------------------------------------------------------|------|
| JUDUL .....                                                       | i    |
| PERNYATAAN BEBAS PLAGIARISME .....                                | ii   |
| KATA PENGANTAR .....                                              | vi   |
| DAFTAR ISI .....                                                  | x    |
| DAFTAR TABEL .....                                                | xiii |
| DAFTAR GAMBAR .....                                               | xiv  |
| DAFTAR LAMBANG DAN SINGKATAN .....                                | xvii |
| ABSTRAK .....                                                     | xix  |
| BAB I PENDAHULUAN .....                                           | 1    |
| I.1. Latar Belakang .....                                         | 1    |
| I.2. Perumusan Masalah .....                                      | 2    |
| I.2.1 Batasan Masalah .....                                       | 2    |
| I.3. Tujuan Penelitian .....                                      | 3    |
| I.4. Manfaat Penelitian .....                                     | 3    |
| BAB II TINJAUAN PUSTAKA .....                                     | 4    |
| II.1. Penggunaan Data Akustik dalam Penilaian Biodiversitas ..... | 4    |
| II.2. <i>Soundscape ecology</i> dan parameter terkait .....       | 5    |
| II.3. Alat Pengambilan data .....                                 | 8    |
| II.4. Durasi dan Interval Pengambilan Data .....                  | 9    |
| II.5. Metode Pengolahan Data .....                                | 10   |
| BAB III DASAR TEORI .....                                         | 17   |
| III.1. Akustik dan gelombang bunyi .....                          | 17   |
| III.1.1. Amplitudo .....                                          | 18   |
| III.1.2. Frekuensi .....                                          | 21   |
| III.1.3. Spektogram .....                                         | 21   |
| III.2. <i>Soundscape ecology</i> .....                            | 23   |
| III.2.1. <i>Geophonies</i> .....                                  | 24   |
| III.2.2. <i>Biophonies</i> .....                                  | 25   |
| III.2.3. <i>Anthrophonies</i> .....                               | 26   |
| III.3. Bioakustik .....                                           | 27   |

|                                     |                                                     |     |
|-------------------------------------|-----------------------------------------------------|-----|
| III.4.                              | Indeks Akustik .....                                | 28  |
| III.4.1.                            | <i>Acoustic Complexity Index</i> .....              | 28  |
| III.4.2.                            | <i>Acoustic Evenness Index</i> .....                | 29  |
| III.4.3.                            | <i>Acoustic Diversity Index</i> .....               | 30  |
| III.4.4.                            | <i>Acoustic Entropy</i> .....                       | 30  |
| III.4.5.                            | <i>Bioacoustic Index</i> .....                      | 32  |
| III.4.6.                            | <i>Normalized difference Soundscape Index</i> ..... | 32  |
| III.5.                              | Hutan Wanagama .....                                | 33  |
| BAB IV PELAKSANAAN PENELITIAN ..... |                                                     | 35  |
| IV.1.                               | Alat dan Bahan Penelitian .....                     | 35  |
| IV.1.1.                             | Alat Ukur .....                                     | 35  |
| IV.1.2.                             | Perangkat Lunak .....                               | 37  |
| IV.2.                               | Prosedur Penelitian .....                           | 37  |
| IV.2.1.                             | Studi Pustaka .....                                 | 38  |
| IV.2.2.                             | Penentuan Lokasi .....                              | 38  |
| IV.2.3.                             | Uji kualitas suara .....                            | 40  |
| IV.2.4.                             | Pengambilan Data .....                              | 41  |
| IV.2.5.                             | <i>Sonotype</i> .....                               | 42  |
| IV.2.6.                             | Pengolahan Data .....                               | 47  |
| IV.2.7.                             | Analisis Hasil Data .....                           | 50  |
| BAB V HASIL DAN PEMBAHASAN .....    |                                                     | 52  |
| V.1.                                | Pengambilan Data .....                              | 52  |
| V.2.                                | Deskripsi Ekosistem .....                           | 53  |
| V.2.1.                              | Petak 17 .....                                      | 53  |
| V.2.2.                              | Petak 18 .....                                      | 55  |
| V.3.                                | Hasil <i>Sonotype</i> .....                         | 56  |
| V.4.                                | Hasil Akustik Indeks .....                          | 122 |
| V.4.1.                              | ACI .....                                           | 122 |
| V.4.2.                              | ADI .....                                           | 129 |
| V.4.3.                              | AEI .....                                           | 135 |
| V.4.4.                              | BI .....                                            | 141 |
| V.4.5.                              | NDSI .....                                          | 146 |

|                                   |                                                      |     |
|-----------------------------------|------------------------------------------------------|-----|
| V.4.6.                            | H.....                                               | 150 |
| V.5.                              | Korelasi Akustik Indeks dengan <i>Sonotype</i> ..... | 155 |
| BAB VI KESIMPULAN DAN SARAN ..... |                                                      | 159 |
| VI.1.                             | Kesimpulan .....                                     | 159 |
| VI.2.                             | Saran.....                                           | 159 |
