

***PERFORMANCE OF SUMBER REJEKI WOMEN FARMER GROUP IN THE
IMPLEMENTATION OF THE LUMBUNG MATARAMAN PROGRAM IN
SIDOMOYO VILLAGE GODEAN SUB-DISTRICT SLEMAN REGENCY***

ABSTRACT

This research aims to: (1) Knowing the implementation of the Lumbung Mataraman Program, (2) Knowing the performance and achievements in implementing the Lumbung Mataraman Program. This research was conducted in September 2024-February 2025. The research location was determined purposively in Sumber Rejeki Women Farmer Group (WFG), Sidomoyo Village, Godean Sub-district, Sleman Regency. The basic method used was a qualitative case study method involving interviews with 9 members of the Sumber Rejeki WFG and several relevant parties. Data were analyzed with data reduction, data display, and conclusions drawing/ verification. The research results are the implementation of the Lumbung Mataraman Program in the Sumber Rejeki's WFG involves on-farm activities that combine agriculture, fisheries, and livestock farming. Meanwhile, the off-farm activities of the KWT include processing agricultural products and marketing them. Based on the five performance evaluation indicators, two indicators have been successfully achieved: Quantity and Independence. The performance achievement of the Sumber Rejeki's WFG is 65%, indicating that the WFG's performance in implementing the Lumbung Mataraman Program is sufficiently successful in achieving the group's targets. Research suggestions are: (1) Establishing a separate fisheries section distinct from the livestock section to enhance the effectiveness of both fields. (2) Improving the quality of WFG performance requires enhancing human resources through increased knowledge and skills among members, achieved by regularly attending duty shifts, participating in simple technical training, and so on. (3) The timeliness of WFG needs to be improved by members, through motivation from extension workers, scheduling daily activities, and so on. (4) The effectiveness of WFG work should be improved through the distribution of responsibilities, either individually or in groups.

KINERJA KWT SUMBER REJEKI DALAM PENERAPAN PROGRAM LUMBUNG MATARAMAN DI KALURAHAN SIDOMOYO KAPANEWON GODEAN KABUPATEN SLEMAN

INTISARI

Penelitian ini bertujuan untuk: (1) mengetahui penerapan Program Lumbung Mataraman (2) mengetahui kinerja dan capaian kelompok dalam penerapan Program Lumbung Mataraman. Penelitian ini dilakukan pada bulan September 2024 – February 2025. Lokasi Penelitian ditentukan secara purposive di Kelompok Wanita Tani Sumber Rejeki, Kalurahan Sidomoyo, Kabupaten Sleman. Metode dasar yang digunakan adalah metode kualitatif studi kasus dengan melakukan wawancara terhadap 9 anggota KWT Sumber Rejeki dan beberapa pihak terkait. Data dianalisis dengan mereduksi data, penyajian data dan penarikan kesimpulan/ verifikasi. Hasil penelitian menunjukkan bahwa penerapan Program Lumbung Mataraman di KWT Sumber Rejeki, yaitu kegiatan *on-farm* dengan mengkombinasikan antara bidang pertanian, perikanan dan peternakan. Sementara kegiatan *off-farm* KWT yaitu pengolahan hasil pertanian dan pemasaran produk. Berdasarkan lima indikator penilaian kinerja kelompok, saat ini terdapat dua indikator yang berhasil yaitu indikator Kuantitas dan Kemandirian. Capaian kinerja KWT Sumber Rejeki sebesar 65%, yang artinya bahwa kinerja KWT dalam penerapan Program Lumbung Mataraman cukup berhasil dalam mencapai target kelompok. Saran penelitian adalah (1) Pembentukan seksi perikanan sendiri yang terpisah dari seksi peternakan untuk efektivitas kedua bidang. (2) Kualitas kinerja KWT perlu adanya peningkatan sumber daya manusia pada pengetahuan dan keterampilan anggota, melalui rutin menghadiri piket, pelatihan teknis sederhana dan sebagainya. (3) Ketepatan waktu KWT perlu ditingkatkan oleh para anggota, melalui motivasi dari penyuluh, penyusun jadwal kegiatan harian, dan sebagainya. (4) Efektivitas kerja KWT sebaiknya ditingkatkan melalui pembagian tanggung jawab baik secara individu atau kelompok.
