APPROVAL LETTER	ii
LEGALIZATION LETTER.....	iii
DECLARATION LETTER.....	iv
PREFACE	v
TABLE OF CONTENTS	vi
LIST OF TABLES	viii
LIST OF FIGURES	ix
ABSTRACT	xi
CHAPTER I INTRODUCTION	1
1.1 Background	1
1.2 Research Objectives and Questions	3
1.3 Limitation.....	4
1.4 Research Benefit	5
CHAPTER II LITERATURE REVIEW	6
2.1 Factors Influencing Landslide Occurrence	6
2.2 Landslide Early Warning System (LEWS).....	7
2.2.1. Definition of LEWS.....	7
2.2.2. Threshold in LEWS	8
2.2.3. Landslide Susceptibility Map	11
2.2.4. Validation in LEWS.....	12
2.3 Novelty in this research.....	13
CHAPTER III THEORETICAL ASPECT	18
3.1. Soil moisture modeling	18
3.1.1. Definition of soil moisture	18
3.1.2. Soil moisture measurement.....	19
3.1.3. The equation used in modeling.....	20
3.2. Inverse Distance Weighting (IDW)	21
3.3. Overlay method.....	22
3.4. Statistical method.....	23
3.4.1. Contingency table	23
3.4.2. Area Under Curve.....	25
3.5. Logic operator	25

CHAPTER IV RESEARCH METHOD.....	27
4.1.Study Area.....	27
4.2.Research Procedure.....	27
4.2.1. First Step: Landslide Inventory.....	28
4.2.2. Second Step: Development of soil moisture modeling.....	30
4.2.3. Third Step: Determination of combined rainfall and soil moisture threshold .	33
4.2.4. Fourth Step: Implementation in LEWS	33
4.3.Tools and data used in this study	33
4.4.Research parameters and analytical method	34
CHAPTER V RESULT AND DISCUSSION.....	36
5.1.Data collection used to build LEWS.....	36
5.2.Soil Moisture Modeling using PC-Raster Platform	47
5.2.1. Model performance.....	47
5.2.2. Estimated soil moisture and rainfall values where landslides occur.....	51
5.3.Rainfall and soil moisture combine threshold.....	52
5.3.1. Correlation of rainfall and soil moisture with landslide events	52
5.3.2. Determining the threshold.....	55
5.4.Implementation of RS-Threshold in LEWS.....	58
5.4.1. Update LSM	58
5.4.2. Integration of LSM and Threshold in LEWS.....	61
5.4.3. Final Validation for LEWS	62
5.4.4. Dissemination to the local community.....	64
5.5.Discussion	66
CHAPTER VI CONCLUSION AND SUGGESTION	69
6.1.Conclusion.....	69
6.2.Suggestion.....	70
REFERENCE	71
