THESIS	i
APPROVAL PAGE	ii
PLAGIARISM-FREE DECLARATION STATEMENT	iii
LIST OF CONTENT	iv
LIST OF TABLE	vi
LIST OF FIGURES	vii
ABSTRACT	viii
CHAPTER I. INTRODUCTION	9
1.1 Research Background	9
1.2 Problem Statement	12
1.3 Research Objective	12
1.4 Research Benefits	13
CHAPTER II. LITERATURE REVIEW	14
2.1 Protease	14
2.2 Classification of Protease	15
2.2.1 Based on Catalytic Mechanism	15
2.2.2 Based on pH Profile	16
2.3 Thermostable Enzymes	17
2.4 Gene Cloning	18
2.5 IPTG concentration, Temperature, and Induction Time of Expression	20
2.6 Whole Genome Sequencing	21
2.7 Research Hypotheses	22
CHAPTER III. METHODS	24
3.1 Research Period and Location	24
3.2 Equipment and Materials	24
3.2.1 Equipment	24
3.2.2 Materials	24
3.3 Research Methods	25
3.3.1 DNA Purification and Ligation	25
3.3.1 Plasmid Transformation	26

3.3.2	Transformant Analysis Using PCR Colony	26
3.3.3	Preparation of Luria Bertani (LB) Medium	27
3.3.4	Revitalization of <i>E. coli</i> BL21 (DE3) NPr pETSUMO.....	27
3.3.5	Inoculation of Colonies into LB Broth.....	28
3.3.6	Preliminary Induction Time and Temperature Expression.....	28
3.3.7	Optimum IPTG Concentration for Induction.....	28
3.3.8	Protein Isolation	29
3.3.9	NPr Purification	29
3.3.10	SDS PAGE	31
3.3.11	Thermostable Neutral Protease Activity Assay.....	31
3.3.12	Whole Genome Sequencing Analysis of <i>Geobacillus</i> sp. DS3.....	32
CHAPTER IV. RESULTS AND DISCUSSION.....		33
4.1	Quality of Whole Genome Sequencing of <i>Geobacillus</i> sp. DS3	33
4.2	Phylogenetic Tree of <i>Geobacillus</i> sp. DS3	34
4.3	Genes Encoding Thermostable Enzymes in <i>Geobacillus</i> sp. DS3.....	35
4.4	Alignment of Cloned <i>npr</i> Gene with the Genom of <i>Geobacillus</i> sp. DS3..	37
4.5	Phylogenetic Tree of Neutral Protease from <i>Geobacillus</i> sp. DS3	38
4.6	Transformation of DNA Vector into <i>Escherichia coli</i> BL21 (DE3).....	39
4.7	PCR Colony of NPr pETSUMO Transformant in <i>E. coli</i> BL21 (DE3).....	41
4.8	Expression of NPr pETSUMO in <i>E. coli</i> BL21 (DE3).....	43
4.9	Optimation of NPr Expression in <i>E. coli</i> BL21 (DE3)	46
4.9.1	Preliminary of Induction Time and Temperature	46
4.9.2	Optimization IPTG Concentration	47
4.10	Protease Activity Assay.....	50
4.11	Protease Activity Assay of Purified Protein Using Nin-TA	52
CHAPTER V. CONCLUTIONS AND RECOMMENDATIONS		54
5.1	Conclutions	54
5.1	Recommendations	54
REFERENCES.....		56
