PREFACE	ii
ACKNOWLEDGEMENTS	iii
TABLE OF CONTENTS	iv
LIST OF TABLES	vii
LIST OF GRAPHS	ix
LIST OF FIGURES	ix
LIST OF PICTURES	ix
LIST OF MAPS	x
LIST OF APPENDIXES	x
INTISARI	xi
ABSTARCT	xii
<b>I. INTRODUCTION</b>	<b>1</b>
1.1. Background	5
1.2. Purpose and Aims	10
1.3. Origin of Environmental Problems in Sangkrah	11
1.4. Problem Formulation	13
1.5. Objectives	13
1.6. Originality of the Research	14
1.7. Reasons for choosing this Topic and Approach	15
1.8. Reasons/Criteria for choosing the Research Area	16
1.9. Usefulness of the Research	18
<b>II. LITERATURE REVIEW</b>	<b>19</b>
2.1(a). The Concept of Urban Planning	19
(b). Ecological Approach to Slum Settlement Planning	22
(c). Major Underlying Concept	25
2.2. Views about Slums	26
(a). Models of Slum Occurrence	27
(b). Understanding the Concept of a Slum Settlement Environment	37
(c). Characteristics of a Slum Settlement	39
2.3. The Theoretical Foundation	42
2.4. Hypotheses	48
2.5. Assumptions	48

<b>III. PROCEDURE AND METHODOLOGY OF THE RESEARCH</b>	<b>49</b>
3.1. Concepts and their Definitions	50
a). Operational Concepts	50
b). Operational Definitions	50
3.2. Research Methodology	54
1). Population and Location Sampling	54
3.3. Materials and Tools needed	57
3.4. Methods of Data Collection	58
(i). Social, Demographic and Economic Data	58
(ii). Environmental and Community Health Data	60
(iii). Soil	60
(iv). Water Quality	61
3.5. Data Processing	63
3.5.1. Data Analysis	63
(a). Test Statistic	63
(b). Scoring Method	66
(i). Housing Quality	67
(c). Criteria for testing water quality	68
(d). Criteria for determining soil stability	68
(e). Community or Environmental Health Analysis	69
3.5.2. Hypotheses Testing	69
3.6. Implementation of the Research	72
<b>IV. FINDINGS OF THE RESEARCH</b>	<b>73</b>
4.1. Physical Conditions of the Environment	73
4.1.1. Population Distribution and Population Pressure on Land	78
4.2. Housing Conditions in Sangkrah	80
4.2.1. Infrastructural Conditions of Sangkrah's Slum Environment	82
(i). Sources of Drinking Water	83
(ii). Human Waste Disposal	86
(iii). Garbage (Sampah) Management	89
4.3. Demographic Aspects of Sangkrah	91
4.4. Socio-Economic Aspects	98
4.5. Environmental Health	108

4.6. Abiotic Aspects	112
4.6.1. Underground Water Aspects	112
4.6.2. Soil and its Conditions	119
4.7. Biotic Aspects	120
<b>V. DATA ANALYSIS AND DISCUSSION</b>	<b>123</b>
<b>A: 5.1. Data Analysis</b>	<b>123</b>
5.2. Hypothesis 1	125
5.3. Hypothesis 2	155
5.4. Hypothesis 3	163
5.5. Hypothesis 4	168
5.6. Hypothesis 5	173
5.7. Hypothesis 6	182
<b>B: Discussion</b>	<b>191</b>
1. Income, Population Nativity and Quality of Houses and Environment	191
2. Quality of the Environment and Health Conditions of the Community	201
3. Water and former land use as an open-garbage dumping ground	212
4. Soil Conditions, Garbage disposition and the suitability of Sangkrah's Soil for Settlement Purposes	214
5. Eroding the basis of life (Destruction of other Ecosystem members)	222
<b>VI. ENVIRONMENTAL MANAGEMENT</b>	<b>225</b>
6.1. Environmental Management Strategies for Sangkrah: [Alleviating Slum Poverty Problems and Environmental management] ( <i>An Ecological Approach Perspective to Urban Planning</i> )	225
I. Poor Houses and Housing Settlements	227
<i>Solutions:</i> (a). Ruralisation	229
(b). Land Tenureship	230
(c). Rural-Based Employment Opportunities	230
II. Housing, Environmental Conditions and Health	231
(A). Housing Aspects and its Solutions	232
(B). Environmental Aspects and its Solutions	233
III. Water Pollution and Provision of Clean Water	234
(a). Ecological Solutions to Flooding Problems	235
(b). Provision of Clean Water	238

IV. Solid Wastes: Solving a Growing Problem -----	241
V. Ecosystem Stability -----	242
<i>Solution</i> : Urban Greenery Approach to Achieving Ecosystem Stability -----	243
6.2. Rationalisation of the Ecologically-Based Facility Allocation Model	
to Slum Problems -----	245
<b>VII. CONCLUSION AND RECOMMENDATIONS</b> -----	<b>255</b>
7.1. Conclusion -----	255
7.2. Recommendations -----	258
7.3. Possible Researches Required -----	262
<b>SUMMARY</b> -----	<b>263</b>
<b>BIBLIOGRAPHY</b> -----	<b>270</b>
<b>APPENDIXES</b> -----	<b>274</b>

#### LIST OF TABLES

Table 1. Population growth in Urban Indonesia -----	6
Table 3.1. Parameters and components of the social environment -----	59
Table 3.2. Environmental Community Health Parameters -----	60
Table 3.3. Parameters and Methods of Soil Measurement -----	61
Table 3.4. Water Parameters and Methods applied for Analysis -----	62
Table 4.1.1. Population estimates of Surveyed Locations -----	76
Table 4.1.2. Population Density in Sangkrah -----	77
Table 4.1.3. Population Pressure on the Land -----	79
Table 4.2. Types of Houses in Sangkrah -----	80
Table 4.2.1. Sources of Drinking and Cooking Water -----	84
Table 4.2.2. Sources of Water for other domestic uses -----	85
Table 4.2.3. Human Feecal Disposition in Sangkrah -----	88
Table 4.2.4. Methods of Garbage Disposition -----	90
Table 4.3. Demographic Aspects of Sangkrah -----	93
Table 4.3.3. Population Status according to Nativity -----	97
Table 4.4. Educational Levels attained by Respondents -----	99
Table 4.4.1. Types of Job Opportunities in Sangkrah -----	101
Table 4.4.3. Income Levels of Respondents -----	104
Table 4.4.4. Land Ownership Status -----	106
