

TABLE OF CONTENTS

COVER.....	i
APPROVAL SHEET.....	ii
STATEMENT OF ORIGINALITY	iii
ACKNOWLEDGEMENT	iv
TABLE OF CONTENTS	vi
LIST OF TABLES	viii
LIST OF FIGURES	ix
ABSTRACT.....	xii
INTISARI	xiii
I. INTRODUCTION	1
1.1 Background.....	1
1.2 Research Objectives.....	3
1.3 Expected Benefits from the Research.....	3
1.4 Hypotheses.....	3
II. LITERATURE REVIEW	4
2.1 Organic Fertilizer	4
2.2 Organic Fertilizer in Indonesia	7
2.3 Soil Organic Phosphorus.....	7
2.4 Acquisition of Soil Organic Phosphorus by Plant	9
2.5 Acid Phosphatase Activity	11
2.6 Rice	11
2.7 Acquisition of Soil Organic Phosphorus by Rice	12
2.8 Soybean.....	13
2.9 Acquisition of Soil Organic Phosphorus by Soybean.....	13
III. MATERIALS AND METHODS	15
3.1 Time and Locations.....	15
3.2 Materials and Equipment	15
3.3 Research Procedure.....	15
3.3.1 Plant Materials and Growth Condition of Rice Cultivars.....	15
3.3.2 Plant Materials and Growth Condition of Soybean Cultivars	17
3.3.3 Root Fresh Weight and Shoot Dry Weight Measurement.....	18
3.3.4 Soil Available P Concentration	18
3.3.5 Acid Phosphatase Activity in Rhizosphere Soil	19

3.3.6	Acid Phosphatase Activity in Root	20
3.3.7	Root Length Measurement.....	21
3.3.8	Determination of P Concentration in Shoots	22
3.3.9	Statistical Analysis	23
IV.	RESULTS AND DISCUSSIONS	24
4.1	Results of Experiment 1	24
4.1.1	Soil Available P Concentration	24
4.1.2	Rhizosphere Soil Acid Phosphatase Activity	25
4.1.3	Root Acid Phosphatase Activity	27
4.1.4	Root Length	30
4.1.5	Phosphorus Concentration in Shoot.....	32
4.1.6	Shoot Phosphorus Uptake	34
4.1.7	Shoot Dry Weight.....	36
4.1.8	Phosphorus Utilization Efficiency	37
4.1.9	Specific P Uptake.....	40
4.1.10	Root Fresh Weight	41
4.1.11	Integrated mechanisms of organic P acquisition in rice cultivars.....	43
4.2	Results of Experiment 2.....	46
4.2.1	Soil Available Phosphorus Concentration.....	46
4.2.2	Rhizosphere Soil Acid Phosphatase Activity	48
4.2.3	Root Acid Phosphatase Activity	50
4.2.4	Root Length	52
4.2.5	Phosphorus Concentration in Shoot.....	54
4.2.6	Shoot Phosphorus Uptake	56
4.2.7	Shoot Dry Weight.....	58
4.2.8	Phosphorus Utilization Efficiency	61
4.2.9	Specific P Uptake.....	62
4.2.10	Root Fresh Weight	64
4.2.11	Integrated mechanisms of organic P acquisition in soybean cultivars....	66
V.	CONCLUSION AND SUGGESTION	71
5.1	Conclusion	71
5.2	Suggestion.....	71
