Glossary	x
Abstract	xi
<i>Intisari</i>	xiii
Chapter 1 Introduction	1
1.1 Problem Statement and Research Objectives	5
1.2 Data and Method	6
1.3 Empirical Contribution.....	7
1.4 Structure of the Thesis.....	7
Chapter 2 Literature Review	9
2.1 Disparities among Provinces and Regencies/Municipalities (1980–2020)....	9
2.2 Government and Regional Development Plans.....	13
2.3 Academic Assessment of Government Development Policies	15
2.4 The Sustainable Development Goals as a Conceptual Framework.....	16
2.5 Summary and Research Gap	19
Chapter 3 Methodology.....	21
3.1 Research Design	21

3.2 Data Sources	23
3.3 Variable Selection	24
3.4 Clustering Method: K-Means Algorithm	24
3.5 Clustering Implementation and Determination of Cluster Number	26
3.6 Post-Clustering Regression	27
3.7 Limitations.....	29
Chapter 4 Results and Discussions	30
4.1 Descriptive Overview of Clustering Indicators	30
4.2 Determination of Optimal Cluster Number	35
4.3 Cluster Characteristics Based on SDG Indicators	36
4.4 Spatial Distribution of Clusters	38
4.5 Socioeconomic Profiles of Clusters.....	41
4.6 Post-Clustering Regression Analysis	42
4.7 Summary of Key Findings	45
Chapter 5 Conclusion.....	48
5.1 Methodological Reflections.....	49
5.2 Reflections on Cluster Typologies	50
5.3 Limitations and Future Directions.....	51
5.4 Policy and Planning Implications.....	53
