

## TABLE OF CONTENTS

	Page
COVER PAGE .....	i
TITLE PAGE .....	ii
SUPERVISORS' APPROVAL PAGE .....	iii
EXAMINERS' APPROVAL PAGE .....	iv
STATEMENT LETTER .....	iv
PREFACE .....	vi
TABLE OF CONTENTS .....	vii
LIST OF TABLES .....	viii
LIST OF FIGURES .....	ix
LIST OF APPENDICES .....	xi
ABSTRACT .....	xii
INTISARI .....	xiii
Chapter 1. General Introduction .....	1
Chapter 2. Collagen Properties of Indonesian Local Sheepskin Isolated Using Acid and Enzymatic Methods .....	21
Chapter 3. Novel Collagen Isolated from Indonesian Local Sheepskin Using <i>Aspergillus oryzae</i> and <i>Bacillus subtilis</i> Enzymes .....	37
Chapter 4. Characterization of Bromelain-Soluble Sheepskin ( <i>Ovis Aries</i> ) Proteins and Effect of Gastrointestinal Digestion on Angiotensin Converting Enzyme Inhibition Activity .....	55
Chapter 5. General Discussion .....	82
Conclusion and Recommendation .....	96
Summary .....	98
Appendices .....	100

## LIST OF TABLES

	Page
Table 1. Development of research on bioactive peptides from sheep protein hydrolysate .....	5
Table 2. Molecular weight profile using SDS-PAGE of Indonesian local sheepskin collagen .....	26
Table 3. Peak positions of FTIR spectra of garut sheepskin collagen. (NSC) neutralse-soluble collagen, (LSC) alcalase-soluble collagen, (BSC) bromelain-soluble collagen, (ASC) acid-soluble collagen .....	27
Table 4. Thermal stability of collagen isolated using various enzymatic methods .....	28
Table 5. Collagen yield, viscosity, and pH were isolated from Indonesian local sheepskin via various enzymatic methods.....	29
Table 6. Peak positions of FTIR spectra of commercial collagen type I (CC), sheepskin collagen extracted using protease from <i>Aspergillus oryzae</i> (C1) and <i>Bacillus subtilis</i> (C2).....	46
Table 7. Thermal stability of sheepskin collagen and commercial collagen.....	48
Table 8. Yield, viscosity and pH of sheepskin collagen .....	50
Table 9. Free amino acids profile of bromelain-soluble protein (BSP), bromelain-soluble protein hydrolysate (BSPH), and control of gastrointestinal digestion .....	66
Table 10. In silico analysis results of the reverse phase-high performance liquid chromatography (RP-HPLC) fractions 2, 3, 12, and 15 .....	71
Table 11. Potential sequences of the selected peptides showing ACE-inhibitory activity according to previous studies .....	75
Table 12. Binding energy and Haddock score of potential peptides against ACE .....	91
Table 13. Protein identification of SDS-PAGE bands in the bromelain-soluble sheepskin protein extract .....	100
Table 14. Peptide sequences identified by LC-MS/MS in the RP-HPLC fraction 2 of the bromelain-soluble sheepskin protein extract after gastrointestinal digestion .....	101
Table 15. Peptide sequences identified by LC-MS/MS in the RP-HPLC fraction 3 of the bromelain-soluble sheepskin protein extract after gastrointestinal digestion .....	105
Table 16. Peptide sequences identified by LC-MS/MS in the RP-HPLC fraction 12 of the bromelain-soluble sheepskin protein extract after gastrointestinal digestion .....	151
Table 17. Peptide sequences identified by LC-MS/MS in the RP-HPLC fraction 15 of the bromelain-soluble sheepskin protein extract after gastrointestinal digestion .....	156

## LIST OF FIGURES

	Page
Figure 1. Illustration of collagen structure .....	6
Figure 2 Structure of keratin protein .....	7
Figure 3. Theoretical research framework.....	9
Figure 4. Research methodology.....	13
Figure 5. SDS-PAGE results of collagen extracted with various enzymes and CH <sub>3</sub> COOH. (1) marker, (2) neutrase, (3) alcalase, (4) bromelain, (5) CH <sub>3</sub> COOH.....	26
Figure 6. FTIR spectra of collagen extracted with acid and various enzymatic methods. (NSC) neutrase-soluble collagen, (LSC) alcalase-soluble collagen, (BSC) bromelain-soluble collagen, (ASC) acid-soluble collagen. ....	27
Figure 7. DSC spectra of collagen samples extracted with acid and various enzymatic methods. (NSC) neutrase-soluble collagen, (LSC) alcalase-soluble collagen, (BSC) bromelain-soluble collagen, (ASC) acid-soluble collagen .....	28
Figure 8. Schematic of sheepskin collagen extraction protocol.....	41
Figure 9. SDS PAGE results of marker (M), commercial collagen type I (CC), sheepskin collagen extracted using protease from <i>Aspergillus oryzae</i> (C1) and <i>Bacillus subtilis</i> (C2) .....	44
Figure 10. FTIR spectra of commercial collagen type I (CC), sheepskin collagen extracted using protease from <i>Aspergillus oryzae</i> (C1) and <i>Bacillus subtilis</i> (C2).....	46
Figure 11. DSC spectra of commercial collagen type I (CC), sheepskin collagen extracted using protease from <i>Aspergillus oryzae</i> (C1) and <i>Bacillus subtilis</i> (C2).....	47
Figure 12. Graphical abstract.....	56
Figure 13. Molecular weight distribution of the peptides of bromelain-soluble protein (BSP) and bromelain-soluble protein hydrolysate (BSPH) isolated from sheepskin.....	67
Figure 14. Reverse phase-high performance liquid chromatography (RP-HPLC) profile and ACE-inhibition of the fraction <3 kDa from bromelain-soluble protein hydrolysate (BSPH) isolated from sheepskin.....	68
Figure 15. Distribution of the peptides identified by liquid chromatography-tandem mass spectrometry (LC-MS/MS) according to their parent protein in the a) fraction 2, b) fraction 3, c) fraction 12, and d) fraction 15 collected from reversease-high performance liquid chromatography (RP-HPLC).....	70
Figure 16. Interaction between angotensin converting enzyme (ACE) and GPAGPAGPR in 3D structure (A, B) and receptor ligand interaction in a 2D diagram (C) .....	90

Figure 17. Interaction between angotensin converting enzyme (ACE) and QGPPGPAGPR in 3D structure (A, B) and receptor ligand interaction in a 2D diagram (C) .....	91
Figure 18. SDS-PAGE pattern of bromelain-soluble protein (BSP) and bromelain-soluble protein hydrolysate (BSPH) isolated from sheepskin. The red rectangle corresponds to the nine protein bands that were selected for LC-MS/MS analysis. ....	100
Figure 19. In vitro gastrointesinal digestion process in small scale test .....	167
Figure 20. In vitro gastrointesinal digestion process in large scale test .....	167
Figure 21. Ultrafiltration test .....	167
Figure 22. RP-HPLC Fractionation.....	167
Figure 23. RP-HPLC column.....	168
Figure 24. Automatic collector RP-HPLC fraction.....	168
Figure 25. SDS-PAGE analysis .....	168
Figure 26. Degree of hydrolysis analysis using OPA method .....	168

## LIST OF APPENDICES

	Page
Appendix 1. Supplementary paper III .....	100
Appendix 2. Research documentation .....	167
