TABLE LIST	vi
FIGURE LIST	vii
ABSTRACT	ix
CHAPTER 1 INTRODUCTION	1
1.1 Research Background.....	1
1.2 Research Problem.....	2
1.3 Research Scope and Limitations.....	3
1.4 Research Objectives.....	3
1.5 Research Benefits.....	3
1.6 Research Methodology Overview.....	4
1.7 Writing Systematics.....	4
CHAPTER 2 LITERATURE REVIEW	6
2.1 GRU-Based Methods on Traffic Flow Prediction.....	6
2.2 Deep Learning Methods for Time Series Forecasting.....	8
CHAPTER 3 RESEARCH METHODS	12
3.1 Research Overview.....	12
3.2 Data.....	12
3.2.1 Data Source and Description.....	13
3.2.2 Data Preprocessing and Feature Engineering.....	14
3.2.3 Sliding Window Sequence Generation.....	16
3.3 Model Design.....	17
3.3.1 Theoretical Framework.....	17
3.3.2 System Design and Data Flow.....	19
3.3.3 Network Topologies.....	21
3.4 Evaluation Design and Analysis.....	24
3.4.1 Experimental Setup.....	24
3.4.2 Performance Metrics.....	25
CHAPTER 4 IMPLEMENTATION	28
4.1 Implementation Steps.....	28
4.2 Tools and Materials.....	29
4.2.1 Hardware.....	30
4.2.2 Software.....	30

4.2.3 Dataset.....	30
4.2.4 Supporting Libraries.....	30
4.3 Program Code and Explanation.....	31
4.3.1 Data Loading and Preprocessing.....	32
4.3.2 Feature Analysis and Preprocessing.....	32
4.3.3 GRU Model Definition and Training.....	33
4.3.4 Evaluation.....	36
4.3.5 Visualization.....	37
4.4 Implementation Testing.....	39
4.4.1 Testing.....	39
4.4.2 Hyperparameters and Configuration.....	40
4.4.3 Evaluation Metrics.....	41
4.5 Code Documentation.....	42
4.5.1 Data Preprocessing Verification.....	42
4.5.2 Training Execution Logs.....	44
CHAPTER 5 RESULTS AND DISCUSSION.....	47
5.1 Results.....	47
5.1.1 First Scenario with Full Feature Evaluation.....	47
5.1.2 Second Scenario with Optimized Feature Evaluation.....	48
5.1.3 Qualitative Visual Inspection.....	49
5.2 Discussion.....	51
5.2.1 Analysis of Feature Dimensionality.....	51
5.2.2 Impact of Network Depth.....	52
CHAPTER 6 CONCLUSION AND SUGGESTION.....	54
6.1 Conclusion.....	54
6.2 Suggestion.....	55
BIBLIOGRAPHY.....	57

TABLE LIST

Tabel 2.1 Summary of GRU-based Models	6
Tabel 2.2 Summary of Deep Learning Models	9
Tabel 4.1 Specifications of Tools and Materials	31
Tabel 4.2 Configuration of GRU Model Variants	35
Tabel 5.1 Impact of Feature Selection on Model Performance	46
Tabel 5.2 Performance Results of Optimized Feature Set	47
