

APPROVAL SHEET .....	ii
VALIDATION SHEET .....	iii
DECLARATION OF ACADEMIC INTEGRITY .....	iv
PREFACE .....	v
TABLE OF CONTENTS .....	vi
LIST OF TABLES .....	viii
LIST OF FIGURES .....	ix
ABSTRACT .....	xii
CHAPTER 1 INTRODUCTION .....	1
1.1 Background .....	1
1.1.1 Indonesia's railway maintenance challenges .....	1
1.1.2 Rationale for adopting UK and EU maintenance standards.....	3
1.2 Research Questions .....	5
1.3 Aim and Objectives.....	5
1.4 Research Scopes.....	5
1.5 Research Benefits.....	6
1.6 Organisation of Thesis .....	6
CHAPTER 2 LITERATURE REVIEW .....	8
2.1 Rolling Stock Maintenance .....	8
2.2 UK Rolling Stock Maintenance Standards .....	8
2.2.1 Railway safety regulations .....	8
2.2.2 ECM certification.....	9
2.2.3 UK post-brexit equivalents (NTSNs and industry standards).....	10
2.3 EU Rolling Stock Maintenance Standards.....	11
2.3.1 European standards (EN Series).....	11
2.3.2 Interoperability standards (EU technical specifications) .....	12
2.4 Indonesian Rolling Stock Maintenance Practices .....	13
2.4.1 National legislative framework .....	13
2.4.2 Ministry of Transportation (MoT) regulations.....	14
2.4.3 Current maintenance practices .....	15
2.5 Novelty of Research.....	16
CHAPTER 3 THEORETICAL BASIS.....	17
3.1 Policy Transfer Framework Theory .....	17
3.2 Framework Development Method .....	18
3.3 Literature Review Analysis Method .....	18
CHAPTER 4 RESEARCH METHODOLOGY .....	19
4.1 Research Design.....	19
4.2 Data Collection .....	20
4.3 Data Analysis .....	21
4.3.1 Thematic analysis.....	21
4.3.2 Comparative analysis .....	21
4.3.3 Gap analysis .....	22
4.4 Framework Development.....	22
4.5 Feasibility Evaluation .....	23
CHAPTER 5 DATA RESULT AND ANALYSIS .....	24
5.1 The Main Aspects of UK & EU Rolling Stock Maintenance Standards .....	24
5.1.1 Maintenance organisational structure .....	24

5.1.2	Maintenance planning .....	26
5.1.3	Procedures and standards .....	29
5.1.4	Documentation and record-keeping .....	32
5.1.5	Certification and competency .....	37
5.1.6	Safety and quality assurance .....	41
5.2	Comparative and Gap Analysis between UK, EU, and Indonesia Standards .....	46
5.2.1	Maintenance organisational structure .....	46
5.2.2	Maintenance planning .....	47
5.2.3	Procedures and standards .....	47
5.2.4	Documentation and record-keeping .....	48
5.2.5	Certification and competency .....	49
5.2.6	Safety and quality assurance .....	49
5.2.7	Specific requirements for passenger train maintenance .....	50
5.3	Framework Development .....	57
5.3.1	Technical standards adoption .....	57
5.3.2	Legal and regulatory modification .....	58
5.3.3	Institutional setup .....	60
5.3.4	Implementation strategies .....	62
5.4	Feasibility Evaluation .....	63
5.5	Implementation Roadmap .....	65
5.5.1	Short-term (1-2 years): laying the foundation for alignment .....	66
5.5.2	Medium-term (3 – 5 years): implementation and scaling up .....	67
5.5.3	Long-term (6 – 10 years): sustaining the harmonised system .....	69
5.6	Correlation analysis of railway safety and maintenance standards .....	74
5.7	Case studies from other countries .....	76
CHAPTER 6 CONCLUSION AND RECOMMENDATION .....		77
6.1	Conclusion .....	77
6.2	Recommendation .....	78
6.3	Limitation and Future Work .....	78
REFERENCES .....		79
