

2.2.5	Graph Learning and Knowledge Validation	28
2.3	The Convergence of KG, AI, and Data Integration for Halal Tourism: A Theoretical Synthesis	29
2.4	Research Questions	30
CHAPTER III RESEARCH METHODOLOGY.....		32
3.1	HTKG Construction Methodology	32
3.1.1	Research Design.....	32
3.1.2	HTKG Construction Process Overview	33
3.1.3	Cross-Cutting AI Enhancement and Quality Control	34
3.1.3.1	AI-enhancement	34
3.1.3.2	Quality Control.....	35
3.2	Halal Tourism Ontology Development.....	36
3.2.1	Knowledge Acquisition and Concept Extraction.....	36
3.2.2	Conceptualization and Hierarchy Development	37
3.2.3	Formalization and Implementation	39
3.2.4	Expert Validation and Evaluation	40
3.2.4.1	Expert Validation	40
3.2.4.2	Technical Quality Assessment.....	41
3.3	Knowledge Source Evaluation and Selection.....	42
3.3.1	Source Quality Criteria Development.....	43
3.3.1.1	Literature-Based Criteria Identification	43
3.3.1.2	Expert Consultation Process	43
3.3.1.3	Weight Determination Methodology.....	44
3.3.1.4	LLM Validation Methodology.....	44
3.3.1.5	Statistical Validation Framework	45
3.3.2	AI-enhanced Evaluation Tool Development.....	47
3.3.2.1	Tool Architecture Design	47
3.3.2.2	Technology Stack Selection.....	48
3.3.2.3	LLM Integration	48
3.3.2.4	Evaluation Methodology Design.....	49
3.3.2.5	Comparative Analysis Framework	51
3.3.3	Source Selection Protocol for Japan Case Study	51
3.3.3.1	Website Identification and Screening	51
3.3.3.2	Quality Threshold Establishment and Selection Decision Framework	52
3.3.3.3	Final Selection Decision	52
3.4	Knowledge Extraction.....	52
3.4.1	AI-based Web Scraping Tool Development	53
3.4.1.1	Tool Architecture Design	53
3.4.1.2	Technology Stack Selection.....	54
3.4.1.3	LLM Integration Multiple Provider API.....	54
3.4.1.4	Performance Evaluation.....	55

3.4.2	Knowledge Source Extraction Protocol for Japan Case Study	56
3.5	Knowledge Construction and Integration.....	57
3.5.1	Graph Architecture Design	57
3.5.1.1	Node Modeling Strategy	57
3.5.1.2	Relationship Architecture Design	58
3.5.1.3	Provenance and Quality Metadata.....	60
3.5.2	Knowledge Integration Process.....	60
3.5.2.1	Multi-Source Data Integration Workflow	60
3.5.2.2	Normalization and Quality Control of Data.....	61
3.5.3	Population and Relationship Creation in the Graph	62
3.5.3.1	Entity Creation and Validation	62
3.5.3.2	Semantic Relationship Establishment	62
3.6	HTKG Evaluation and Validation	63
3.6.1	Data Integration Quality Verification.....	63
3.6.1.1	Duplicate Detection and Resolution Validation	63
3.6.1.2	Data Consistency Verification Across Sources	63
3.6.1.3	Relationship Integrity and Network Connectivity Validation	63
3.6.1.4	Technical Constraint and System Integrity Verification ...	64
3.6.2	Use Case Scenario Testing.....	64
CHAPTER IV	RESULTS AND DISCUSSIONS	66
4.1	Halal Tourism Ontology Development Results	66
4.1.1	Knowledge Acquisition and Concept Extraction.....	66
4.1.2	Conceptualization and Hierarchy Development	68
4.1.3	Formalization and Implementation	69
4.1.4	Expert Validation and Evaluation Result	72
4.1.4.1	Expert Validation Result	72
4.1.4.2	Technical Quality Assessment Result	76
4.2	Knowledge Source Evaluation and Selection.....	78
4.2.1	Criteria Development Results	78
4.2.1.1	Final Evaluation Criteria Framework Results	78
4.2.1.2	Expert Consensus and Weight Determination Results.....	78
4.2.1.3	LLM Validation and Statistical Analysis Results	82
4.2.2	AI-enhanced Evaluation Tool Development.....	86
4.2.2.1	Tool Architecture and Deployment Implementation Results	86
4.2.2.2	Technology Stack Implementation Results.....	89
4.2.2.3	LLM Integration Implementation Results	89
4.2.2.4	Evaluation Methodology Implementation Results.....	90
4.2.2.5	Comparative Analysis Implementation Results	95
4.2.3	Source Selection Protocol Implementation Results.....	101
4.2.3.1	Website Identification and Screening Implementation	101

4.2.3.2	Quality Threshold Application Results.....	101
4.2.3.3	Final Selection Decision Implementation	102
4.3	Knowledge Extraction.....	103
4.3.1	AI-based Web Scraping Tool Development Results	103
4.3.1.1	Tool Architecture Design	103
4.3.1.2	Technology Stack Selection.....	104
4.3.1.3	LLM Integration Multiple Provider API.....	106
4.3.1.4	Performance Evaluation.....	106
4.3.2	Knowledge Source Extraction for Japan Case Study Result.....	112
4.4	Knowledge Construction and Integration.....	115
4.4.1	Graph Architecture Design Implementation.....	115
4.4.1.1	Node Modeling Strategy Implementation	116
4.4.1.2	Relationship Architecture Design Implementation.....	119
4.4.1.3	Provenance and Quality Metadata Implementation	121
4.4.2	Knowledge Integration Process Implementation	126
4.4.2.1	Multi-Source Data Integration Implementation	126
4.4.2.2	Normalization and Quality Control Implementation.....	130
4.4.3	Population and Relationship Creation Implementation.....	130
4.4.3.1	Entity Creation and Validation Implementation.....	131
4.4.3.2	Semantic Relationship Establishment Implementation....	132
4.5	HTKG Evaluation and Validation Results.....	134
4.5.1	Data Integration Quality Verification Results	134
4.5.1.1	Duplicate Detection and Resolution Validation Results...	135
4.5.1.2	Data Consistency Verification Across Sources Results....	137
4.5.1.3	Relationship Integrity and Network Connectivity Vali- dation Results.....	138
4.5.1.4	Technical Constraint and System Integrity Verification Results.....	142
4.5.2	Use Case Scenario Testing Results	145
4.6	Discussion.....	152
4.6.1	Positioning HTKG Against Existing Tourism Knowledge Graphs ..	154
4.6.2	Ethical and Social Implications: Cultural Sensitivity and AI Bias...	154
4.6.3	Methodological Generalizability and Cross-Domain Transferabil- ity	157
4.6.3.1	Domain-Agnostic Framework Components.....	157
4.6.3.2	Domain-Specific Customization Requirements	158
4.6.3.3	Applicability Beyond Tourism	158
4.6.4	AI Efficiency Analysis in HTKG Construction.....	159
CHAPTER V	CONCLUSION AND RECOMMENDATIONS	161
5.1	Conclusion	161
5.2	Recommendations.....	162
5.2.1	Methodological and Theoretical Enhancements.....	162

5.2.2	Data Integration and Quality Management	163
5.2.3	Ethical AI and Cultural Sensitivity	163
5.2.4	Evaluation and Impact Assessment.....	164
5.2.5	Responsible AI Governance.....	164

APPENDICES	A-1
Appendix A: Detailed Input-Process-Output Breakdown for HTKG Construction		
Phases		A-1
Appendix B: Halal Tourism Ontology Class Hierarchy		B-1
B.1 Main Class Categories Overview		B-1
B.2 Accommodation Classes.....		B-1
B.3 Destinations and Attractions.....		B-1
B.4 Facilities and Infrastructure		B-2
B.5 Food and Beverage.....		B-2
B.6 Halal Tourism Management		B-3
B.7 Information and Technology.....		B-3
B.8 Islamic Ethical and Cultural		B-3
B.9 Regulations and Compliance		B-3
B.10 Stakeholders		B-4
B.11 Travel and Transportation		B-4
Appendix C: Lists of Object Properties		C-1
C.1 Core Relationship Properties		C-1
C.2 Management and Administrative Properties		C-1
C.3 Service Provision Properties		C-2
C.4 Accommodation and Facility Properties.....		C-3
C.5 Food and Beverage Properties.....		C-4
C.6 Certification and Quality Assurance Properties		C-4
C.7 Transportation and Travel Properties		C-5
C.8 Shopping and Product Properties.....		C-6
C.9 Technology and Information Properties.....		C-7
C.10 Cultural and Educational Properties		C-8
