| DAFTAR TABEL.....                     | viii |
| DAFTAR GAMBAR .....                   | ix   |
| INTISARI.....                         | xi   |
| ABSTRACT.....                         | xii  |
| BAB I PENDAHULUAN .....               | 1    |
| 1.1 Latar Belakang .....              | 1    |
| 1.2 Rumusan Masalah .....             | 3    |
| 1.3 Tujuan Penelitian.....            | 3    |
| 1.4 Batasan Penelitian .....          | 3    |
| 1.5 Manfaat Penelitian .....          | 3    |
| 1.6 Waktu dan Tempat Penelitian.....  | 4    |
| BAB II TINJAUAN PUSTAKA.....          | 5    |
| 2.1 Tinjauan Geologi.....             | 5    |
| 2.1.1 Geologi Daerah Penelitian ..... | 5    |
| 2.1.2 Tatahan Tektonik .....          | 7    |
| 2.1.3 Stratigrafi.....                | 9    |
| 2.1.4 Sistem Petroleum .....          | 15   |
| 2.2 Tinjauan Geofisika .....          | 17   |
| BAB III DASAR TEORI .....             | 20   |
| 3.1 Mikrotremor .....                 | 20   |
| 3.2 Seismik Pasif Hidrokarbon .....   | 20   |
| 3.3 Anomali Spektral .....            | 23   |
| 3.4 Band-Pass Filter .....            | 25   |
| 3.5 Transformasi Fourier.....         | 26   |

|                                                         |                                                                 |    |
|---------------------------------------------------------|-----------------------------------------------------------------|----|
| 3.6                                                     | Analisis Polarisasi .....                                       | 27 |
| 3.7                                                     | Atribut Spektrum terkait Hidrokarbon .....                      | 30 |
| 3.7.1                                                   | <i>Power Spectral Density (PSD)</i> .....                       | 30 |
| 3.7.2                                                   | <i>Vertical/Horizontal Spectral Ratio (VHSR)</i> .....          | 31 |
| 3.7.3                                                   | <i>Frequency Shift of Maximum Spectra</i> .....                 | 32 |
| 3.8                                                     | Variasi Temporal dan Spasial .....                              | 33 |
| 3.9                                                     | Sistem Petroleum .....                                          | 37 |
| BAB IV METODE PENELITIAN .....                          |                                                                 | 41 |
| 4.1                                                     | Area dan Data Penelitian .....                                  | 41 |
| 4.2                                                     | Perangkat Keras dan Lunak .....                                 | 42 |
| 4.3                                                     | Diagram Alir Penelitian .....                                   | 43 |
| 4.4                                                     | Pengolahan Data Penelitian .....                                | 45 |
| 4.4.1                                                   | <i>Adjustment Data</i> .....                                    | 45 |
| 4.4.2                                                   | Analisis Spektrum .....                                         | 46 |
| 4.4.3                                                   | Variasi <i>Windowing</i> .....                                  | 47 |
| 4.4.4                                                   | Koreksi Temporal .....                                          | 48 |
| 4.4.5                                                   | Koreksi Spasial .....                                           | 49 |
| 4.4.6                                                   | <i>Integrated Attributes</i> .....                              | 49 |
| BAB V HASIL DAN PEMBAHASAN .....                        |                                                                 | 51 |
| 5.1                                                     | Peta Persebaran Atribut Spektrum Awal .....                     | 51 |
| 5.2                                                     | Peta Persebaran Atribut Spektrum setelah Koreksi Temporal ..... | 54 |
| 5.3                                                     | Peta Persebaran Atribut Spektrum setelah Koreksi Spasial .....  | 56 |
| 5.4                                                     | <i>Integrated Attributes</i> .....                              | 59 |
| 5.5                                                     | Korelasi dengan Peta Struktur .....                             | 63 |
| 5.6                                                     | Perbandingan Atribut Spektrum tiap <i>Windowing</i> .....       | 65 |
| BAB VI KESIMPULAN DAN SARAN .....                       |                                                                 | 68 |
| 6.1                                                     | Kesimpulan .....                                                | 68 |
| 6.2                                                     | Saran .....                                                     | 69 |
| DAFTAR PUSTAKA .....                                    |                                                                 | 70 |
| LAMPIRAN .....                                          |                                                                 | 74 |
| <i>Adjustment Data</i> .....                            |                                                                 | 74 |
| Nilai Atribut Spektrum Awal <i>Windowing</i> 10 s ..... |                                                                 | 75 |

|                                                                        |    |
|------------------------------------------------------------------------|----|
| Nilai Atribut Spektrum Awal <i>Windowing</i> 20 s .....                | 76 |
| Nilai Atribut Spektrum Awal <i>Windowing</i> 60 s .....                | 77 |
| Nilai Atribut Spektrum Awal <i>Windowing</i> 90 s .....                | 78 |
| <i>Fitting Data Monitoring</i> tiap <i>Windowing</i> .....             | 79 |
| Nilai Atribut Spektrum Terkoreksi Temporal <i>Windowing</i> 10 s ..... | 79 |
| Nilai Atribut Spektrum Terkoreksi Temporal <i>Windowing</i> 20 s ..... | 81 |
| Nilai Atribut Spektrum Terkoreksi Temporal <i>Windowing</i> 60 s ..... | 82 |
| Nilai Atribut Spektrum Terkoreksi Temporal <i>Windowing</i> 90 s ..... | 83 |
| <i>Spatial Noise Analysis Windowing</i> 10 s .....                     | 84 |
| <i>Spatial Noise Analysis Windowing</i> 20 s .....                     | 85 |
| <i>Spatial Noise Analysis Windowing</i> 60 s .....                     | 85 |
| <i>Spatial Noise Analysis Windowing</i> 90 s .....                     | 85 |
| Nilai Atribut Spektrum Terkoreksi Spasial <i>Windowing</i> 10 s .....  | 86 |
| Nilai Atribut Spektrum Terkoreksi Spasial <i>Windowing</i> 20 s .....  | 87 |
| Nilai Atribut Spektrum Terkoreksi Spasial <i>Windowing</i> 60 s .....  | 88 |
| Nilai Atribut Spektrum Terkoreksi Spasial <i>Windowing</i> 90 s .....  | 89 |
| Nilai Pembobotan <i>Integrated Attributes Windowing</i> 10 s .....     | 90 |
| Nilai Pembobotan <i>Integrated Attributes Windowing</i> 20 s .....     | 91 |
| Nilai Pembobotan <i>Integrated Attributes Windowing</i> 60 s .....     | 92 |
| Nilai Pembobotan <i>Integrated Attributes Windowing</i> 90 s .....     | 93 |
