| INTISARI.....                             | xiii |
| <i>ABSTRACT</i> .....                     | xiv  |
| <b>BAB I</b> <b>PENDAHULUAN</b>           |      |
| 1.1 Latar Belakang dan Permasalahan ..... | 1    |
| 1.2 Pembatasan Masalah .....              | 3    |
| 1.3 Tujuan Penelitian.....                | 3    |
| 1.4 Tinjauan Pustaka .....                | 4    |
| 1.5 Metode Penulisan .....                | 5    |
| 1.6 Sistematika Penulisan.....            | 5    |
| <b>BAB II</b> <b>LANDASAN TEORI</b>       |      |
| 2.1 Variabel Random.....                  | 7    |
| 2.2 Matriks dan Vektor.....               | 14   |
| 2.2.1 Pengertian Matriks .....            | 14   |
| 2.2.2 Operasi Matriks.....                | 14   |
| 2.2.3 <i>Transpose</i> Matriks .....      | 16   |
| 2.2.4 Jenis-Jenis Matriks.....            | 17   |
| 2.2.5 Determinan Matriks .....            | 20   |
| 2.2.6 Invers Matriks .....                | 21   |
| 2.2.7 Trace Matriks .....                 | 22   |
| 2.2.8 Vektor .....                        | 22   |

|                |  |    |
|----------------|--|----|
| 2.3            | Nilai Eigen dan Vektor Eigen .....               | 23 |
| 2.4            | Dekomposisi <i>Cholesky</i> .....                | 24 |
| 2.5            | Analisis Regresi Linear .....                    | 26 |
| 2.6            | Metode OLS .....                                 | 27 |
| 2.7            | <i>Mean Square Error</i> .....                   | 29 |
| 2.8            | Multikolinearitas .....                          | 30 |
|                | 2.8.1 Sifat Dasar Multikolinearitas .....        | 30 |
|                | 2.8.2 Deteksi Multikolinearitas .....            | 31 |
| 2.9            | Heteroskedastisitas .....                        | 32 |
|                | 2.9.1 Definisi Heteroskedastisitas .....         | 32 |
|                | 2.9.2 Deteksi Heteroskedastisitas .....          | 33 |
| 2.10           | Konsep Metode <i>Jackknife</i> .....             | 34 |
| <b>BAB III</b> | <b><i>JACKKNIFED LIU ESTIMATOR</i></b>           |    |
| 3.1            | <i>Liu Estimator</i> .....                       | 36 |
| 3.2            | <i>Generalized Liu Estimator</i> .....           | 38 |
| 3.3            | <i>Jackknifed Liu Estimator</i> .....            | 41 |
| 3.4            | Keunggulan <i>Jackknifed Liu Estimator</i> ..... | 48 |
| 3.5            | Penentuan Nilai Tetapan <i>d</i> .....           | 55 |
| 3.6            | Algoritma <i>Jackknifed Liu Estimator</i> .....  | 56 |
| <b>BAB IV</b>  | <b>STUDI KASUS</b>                               |    |
| 4.1            | Data dan Permasalahan .....                      | 58 |
| 4.2            | Pengolahan Data .....                            | 60 |
|                | 4.2.1 Metode <i>Ordinary Least Square</i> .....  | 60 |
|                | 4.2.2 Pengujian Asumsi .....                     | 62 |
|                | 4.2.3 Penentuan Tetapan <i>d</i> .....           | 64 |
|                | 4.2.4 <i>Jackknifed Liu Estimator</i> .....      | 66 |
|                | 4.2.5 Estimasi Model Regresi .....               | 67 |
| 4.3            | Perbandingan MSE .....                           | 68 |
| <b>BAB V</b>   | <b>PENUTUP</b>                                   |    |
| 5.1            | Kesimpulan .....                                 | 70 |
| 5.2            | Saran .....                                      | 71 |
