

INTISARI

Kawasan Rumah Pangan Lestari (KRPL) merupakan bagian dari Program Percepatan Penganekaragaman Konsumsi Pangan (P2KP) sebagai upaya pengoptimalan pekarangan. Penelitian ini berjudul “Pengaruh Peranan Kelompok Wanita Tani terhadap Pelaksanaan Program Kawasan Rumah Pangan Lestari di Kabupaten Kulon Progo” bertujuan untuk mengetahui: 1) tingkat peranan kelompok wanita tani, 2) pengaruh umur, tingkat pendidikan, sikap, dan motivasi terhadap peranan wanita tani, dan 3) pengaruh umur, tingkat pendidikan, sikap, motivasi, dan peranan kelompok wanita tani terhadap pelaksanaan Program KRPL di Kabupaten Kulon Progo. Metode yang digunakan dalam penelitian adalah deskriptif analitis dengan teknik survei. Sampel desa, dusun, dan kelompok wanita tani dipilih secara purposif dengan pertimbangan bahwa wilayah dan kelompok wanita tani tersebut sedang atau pernah melaksanakan program KRPL. Dari masing-masing sampel kelompok wanita tani diambil 15 sampel anggota secara acak sederhana sehingga jumlah total sampel 60 orang. Data dianalisis dengan Uji Proporsi dan analisis Regresi Linear Berganda. Hasil penelitian menunjukkan bahwa kelompok wanita tani memiliki peranan tinggi dalam pelaksanaan program Kawasan Rumah Pangan Lestari di Kabupaten Kulon Progo. Peranan kelompok wanita tani dipengaruhi oleh motivasi. Peranan kelompok wanita tani, tingkat pendidikan, dan motivasi berpengaruh terhadap pelaksanaan program Kawasan Rumah Pangan Lestari.

Kata kunci: Peranan, Kelompok Wanita Tani, KRPL, Kabupaten Kulon Progo

Sustainable Food Garden Program (KRPL) is part of Acceleration of Food Consumption Diversification Program (P2KP) as an effort to optimize the yard. This research, "The Effect of the Role of Women Farmer Group on the Implementation of Sustainable Food Garden Program in Kulon Progo Regency". This study objectives were to find out: 1) the role level of women farmer group, 2) the influence of age, education level, attitude, and motivation to role of women farmer group, and 3) the influence of age, education level, attitude, motivation and, role of women farmer group in the implementation of KRPL program in Kulon Progo Regency. Analytical descriptive method was used as basic method with survey technique. Samples of villages, hamlets, and groups of women farmer were selected purposively with consideration in the region or group of women who ever conducted a KRPL Program. The selected sample of women farmer group was taken 15 women as a simple random sample so that the total sample was 60 women. The data was analyzed used Proportion Test and Multiple Linear Regression analysis. The results showed that women farmer group had a high role to implement KRPL Program in Kulon Progo Regency. The role of women farmer group significantly influenced by motivation. The role of women farmer group, education, and motivation significantly influenced the implementation of the KRPL Program held in Kulon Progo Regency.
