Does Portfolio Rebalancing Explain the Weak Rate-Sensitivity of Construction Credit in Indonesia? Evidence from a Seven-Variable VECM, 2004-2024
Rabindra Abisatya Kartiko, Novat Pugo Sambodo, S. E., MIDEC., Ph.D.
Universitas Gadjah Mada, 2026 | Diunduh dari http://etd.repository.ugm.ac.id/

TABLE OF CONTENTS

CHAPTER I..... 1
INTRODUCTION..... 1
1.1 Background..... 1
1.2 Research Problem..... 3
1.3 Research Question..... 4
1.4 Research Motivation..... 5
1.5 Research Benefit..... 5
1.6 Research Limitations..... 6
1.7 Research Contribution..... 8
CHAPTER II..... 9
THEORETICAL FOUNDATION AND LITERATURE REVIEW..... 9
2.1 Monetary Policy Transmission Mechanism..... 9
2.1.1 The Interest Rate Channel..... 10
2.1.2 The Exchange Rate Channel..... 11
2.1.3 Asset Price Effects..... 12
2.1.4 The Credit Channel..... 13
2.2 The Portfolio Rebalancing Channel..... 14
2.2.1 Theoretical Foundation..... 14
2.2.2 Empirical Evidence from Developed Economies..... 15
2.2.3 The Sovereign Securities–Credit Substitution Mechanism..... 18
2.2.4 The Asymmetric Nature of Portfolio Rebalancing..... 19
2.3 The Bank Lending Channel in Indonesia..... 20
2.3.1 Indonesia as a Bank-Dominated Economy..... 20
2.3.2 Evidence for the Bank Lending Channel in Indonesia..... 21
2.3.3 Credit Rationing and Sectoral Allocation..... 24
2.4 The Construction Sector and Bank Credit in Indonesia..... 25
2.4.1 The Construction Sector’s Role in Economic Development..... 25
2.4.2 Construction Sector Credit in Indonesia..... 26
2.5 Review of Prior Empirical Studies..... 27
2.5.1 Monetary Policy Transmission in Emerging Economies..... 27
2.5.2 Portfolio Rebalancing Channel Studies..... 30
2.5.3 Construction Sector Credit Studies in Indonesia..... 32
2.6 Conceptual Framework..... 34
2.7 Research Hypothesis..... 36
CHAPTER III..... 38
3.1 Research Design..... 38
3.2 Definitions of Variables..... 39
Table 3.1 Definitions of Endogenous Variables..... 39
3.2.1 Outcome Variable: Construction Credit Share (CRD)..... 40

3.2.2 Channel Variables....40
3.2.3 Control Variables....41
3.2.4 Exogenous Dummy Variables....41
3.3 Data Sources and Sample Period....45
3.4 Empirical Model Specification....46
3.4.1 The General VAR Framework....46
3.4.2 The VECM Specification....47
3.4.3 The Endogenous Variable Vector and Cholesky Ordering....47
3.4.4 The Long-Run Cointegrating Relationships....48
3.5 Step-by-Step Estimation Procedure....49
Figure 3.1 VECM Workflow....49
3.5.1 Step 1: Stationarity Test....49
3.5.2 Step 2: Optimal Lag Selection....50
3.5.3 Step 3: Johansen Cointegration Test....51
3.5.4 Step 4: VECM Estimation....52
3.5.5 Step 5: Post-Estimation Diagnostics....52
3.5.6 Step 6: Impulse Response Function and Forecast Error Variance Decomposition....53
3.6 Robustness Check....54
3.7 Software and Analytical Tools....55
CHAPTER IV....56
RESULTS....56
4.1 Overview of the Estimation Sample....56
4.2 Stationarity (Unit Root) Test Results....57
4.3 Optimal Lag Length Selection....58
4.4 Johansen Cointegration Test....59
4.4.1 The Rank Decision....60
4.5 VECM Estimation Results....61
4.5.1 Long-run Cointegrating Relationships (beta), Standard Errors....61
4.5.2 Short-Run Adjustment Dynamics....63
4.6 Post-Estimation Diagnostics....64
4.6.1 Eigenvalue Stability....64
4.6.2 Residual Autocorrelation....65
4.6.3 Residual Normality....66
4.7 IRF Analysis....66
4.8 Forecast Error Variance Decomposition....69
4.9 Robustness Checks....71
4.9.1 Robustness of the Cointegration Rank....71
4.9.2 Sensitivity to the Crisis Window Definition (D_CRISIS)....73
4.9.3 Robustness of the Hypothesis Results to Rank and Dummy Window Choice. 75
4.9.4 Broader Bank Securities Holding Measure....77

4.10 Summary of Hypothesis Testing Results....81
CHAPTER V....82
5.1 Discussion....83
5.1.1 Why a weak or reversed H1 result does not mean that the rebalancing channel is insignificant....83
5.1.2 H2's delayed pattern and the bank-asset-substitution literature....84
5.1.3 The exchange-rate finding shows a significant factor outside the hypothesis 84
5.1.4 Incomplete pass-through as a structural reason for a weak total effect....85
5.2 Conclusion....86
References....88
