HALAMAN PENGESAHAN 1

ABSTRACT 2

INTRODUCTION 3

METHODS 4

Study design and participants 4

Diagnostic criteria 4

Clinical and laboratory evaluation 5

RESULTS 5

Baseline characteristics and diagnostic evaluation 5

Diagnostic evaluation and overlap with biliary atresia 6

Baseline laboratory profile 7

Clinical outcomes 8

DISCUSSION 9

Diagnostic timing and the most useful major criteria 9

Cardiac, vertebral, ocular, and other extrahepatic features 10

Overlap with biliary atresia 11

Histopathology and the value of genetic testing 12

CMV infection and ALGS 13

Outcomes, Kasai portoenterostomy, and nutritional status 13

LIMITATIONS 14

CONCLUSION 14

CONFLICT OF INTEREST 15

ACKNOWLEDGEMENT 15

FUNDING 15

REFERENCES 15

APPENDICES 16

Supplementary Picture S1. Ethics Committee Approval 16

Supplementary Table S1. Individual Baseline Characteristics and Clinical Manifestation 18

Supplementary Table S2. Individual Baseline Laboratory Profile, CMV Infection Status 19

Supplementary Table S3. Individual Abdominal Ultrasonography, Liver Biopsy, IOC Result 20

Supplementary Table S4. Individual Complication Profile 21

Supplementary Table S5. Individual Nutritional Status, Liver Transplantation and Mortality 22
