|-------------------------------------------|------|
| PERNYATAAN BEBAS PLAGIASI .....           | iii  |
| KATA PENGANTAR .....                      | iv   |
| DAFTAR ISI.....                           | vii  |
| DAFTAR TABEL .....                        | x    |
| DAFTAR GAMBAR .....                       | xi   |
| DAFTAR LAMPIRAN.....                      | xii  |
| ARTI SINGKATAN.....                       | xiii |
| INTISARI .....                            | xv   |
| ABSTRACT .....                            | xvi  |
| BAB I PENDAHULUAN.....                    | 1    |
| A. Latar Belakang Penelitian .....        | 1    |
| B. Perumusan Masalah .....                | 4    |
| C. Keaslian Penelitian.....               | 5    |
| D. Kebaruan Penelitian .....              | 7    |
| E. Urgensi (Kepentingan) Penelitian ..... | 7    |
| F. Tujuan Penelitian .....                | 8    |
| BAB II TINJAUAN PUSTAKA.....              | 10   |
| A. Dasar Teori .....                      | 10   |
| 1. Diabetes melitus tipe 2 (DMT2) .....   | 10   |
| a. Definisi .....                         | 10   |
| b. Patofisiologi.....                     | 11   |
| c. Tujuan terapi.....                     | 12   |
| d. Penatalaksanaan terapi.....            | 13   |
| e. Monitoring.....                        | 16   |
| 2. Edukasi pasien.....                    | 18   |
| a. Edukasi perorangan .....               | 20   |
| b. Edukasi berkelompok .....              | 20   |

|                                    |                                                                        |    |
|------------------------------------|------------------------------------------------------------------------|----|
| 3.                                 | Tingkat Pengetahuan .....                                              | 24 |
| 4.                                 | <i>Diabetes Self-Management Education (DSME)</i> .....                 | 26 |
| 5.                                 | Peran edukasi terhadap self-management pasien DMT2 .....               | 30 |
| 6.                                 | <i>Framework</i> perubahan perilaku dalam pengembangan intervensi..... | 32 |
| B.                                 | Landasan Ilmiah .....                                                  | 37 |
| C.                                 | Kerangka Teori .....                                                   | 40 |
| D.                                 | Kerangka Konsep .....                                                  | 41 |
| E.                                 | Hipotesis.....                                                         | 42 |
| BAB III METODE PENELITIAN .....    |                                                                        | 40 |
| Gambaran Jalannya Penelitian ..... |                                                                        | 41 |
| A.                                 | Penelitian Tahap 1: Penilaian kebutuhan edukasi pasien DMT2 .....      | 42 |
| 1.                                 | Metode penelitian.....                                                 | 42 |
| 2.                                 | Sampel.....                                                            | 42 |
| 3.                                 | Instrumen penelitian.....                                              | 44 |
| 4.                                 | Teknik pengumpulan data .....                                          | 44 |
| 5.                                 | Analisis data .....                                                    | 44 |
| B.                                 | Penelitian Tahap 2: Penyusunan program edukasi .....                   | 46 |
| 1.                                 | Metode penelitian.....                                                 | 46 |
| 2.                                 | Sampel.....                                                            | 46 |
| 3.                                 | Instrumen penelitian.....                                              | 46 |
| 4.                                 | Teknik pengumpulan data .....                                          | 47 |
| 5.                                 | Analisis data .....                                                    | 47 |
| C.                                 | Penelitian Tahap 3: Pengukuran efektivitas intervensi .....            | 48 |
| 1.                                 | Metode penelitian.....                                                 | 48 |
| 2.                                 | Sampel.....                                                            | 49 |
| 3.                                 | Instrumen penelitian.....                                              | 52 |
| 4.                                 | Variabel .....                                                         | 53 |
| 5.                                 | Jalannya penelitian .....                                              | 54 |
| 6.                                 | Definisi operasional .....                                             | 57 |
| 7.                                 | Analisis data .....                                                    | 57 |
| BAB IV HASIL DAN PEMBAHASAN .....  |                                                                        | 60 |

|                                   |                                                          |     |
|-----------------------------------|----------------------------------------------------------|-----|
| A.                                | Penilaian kebutuhan edukasi pasien DMT2 .....            | 60  |
| 1.                                | Penyakit.....                                            | 65  |
| 2.                                | Edukasi.....                                             | 66  |
| 3.                                | Kepatuhan .....                                          | 66  |
