

## Table of Contents

Chapter 1 .....	1
1.1. Background of Research .....	1
1.2. Purpose of Research.....	12
1.3. Benefits of Research .....	13
1.4. Strengths of Research.....	13
1.5. Limitations of Research .....	13
Chapter 2 .....	15
2.1. Literature Review .....	15
a. Schizophrenia.....	15
b. The Relation between Facial recognition and Fusiform Gyrus	17
c. Research in Top Down Processing using Dynamic Causal Modelling .....	23
d. Fusiform gyrus involvement in top-down of facial process .....	28
e. Hollow Mask Illusion .....	31
2.2. Theoretical Basis .....	32
2.3. Hypotheses .....	34
Chapter 3 .....	35
3.1. Participants .....	35
3.2. Experimental Variables.....	35
3.3. Measurements and Tools .....	36
3.4. Research Method .....	37
3.5. Data Gathering and Report.....	39
3.6. Limitations of the study .....	40
Chapter 4 .....	42

4.1. Study Results .....	42
a. Control Group Data .....	42
b. Validity and Reliability Testing .....	44
c. Patients' Group Data .....	47
d. Comparison between control group and patients' group .....	49
4.2. Discussion .....	54
a. Amount of KIRI-button press .....	54
b. Time difference in the KIRI and KANAN-button presses .....	55
Chapter 5 .....	58
5.1. Conclusions .....	58
5.2. Suggestions .....	59

## List of Figures

Figure 1: Examples of stimuli from low spatial frequency (left), broad spatial frequency (middle) and high spatial frequency (right) (Silverstein et al., 2010).....	16
Figure 2: FFA and FBA regions (Schwarzlose, 2005).....	20
Figure 3: Axial images of posterior fusiform gyrus .....	21
Figure 4: Top-down and Bottom-Up Interaction (Katsuki & Constantinidis, 2014).....	25
Figure 5: Regions of study (Dima et al., 2009) .....	26
Figure 6: Modulation of Effective Connection in Visual Processing (Dima et al., 2010).....	27
Figure 7: Dorsal and Ventral Pathway .....	29
Figure 8: Hollow Mask Illusion.....	33
Figure 9: Application interface.....	37

## List of Tables

Table 1: List of all the timing windows .....	39
Table 2: Example of Timing Window 3 in control group.....	43
Table 3: Correlation between Skala Skizofrenia and amount of KIRI-button pressed.....	45
Table 4: Correlation between Skala Skizofrenia and amount of KANAN-button pressed.....	46
Table 5: Reliability analysis .....	46
Table 6: Cronbach's Alpha if Item Deleted .....	47
Table 7: Example of Timing Window 3 in patients group .....	48
Table 8: Average delay of KIRI-button press of patients group compared to control group .....	49

Table 9: Average delay of KANAN-button press of patients group compared to control group.....	50
Table 10: One Way ANOVA of the number of KIRI-button press in both groups .....	51
Table 11: Example of converted score .....	51
Table 12: ANOVA of KIRI-button press between groups .....	52
Table 13: ANOVA of KANAN-button press between groups.....	53
Table 14: Patients group KIRI-KANAN button presses correlation .....	53
Table 15: Control group KIRI-KANAN button presses correlation.....	54
