APPROVAL SHEET.....	ii
DECLARATION.....	iii
ACKNOWLEDGEMENT.....	iv
TABLE OF CONTENTS	v
LIST OF TABLES.....	ix
LIST OF FIGURES	xi
ABSTRACT	xiv
ABBREVIATIONS	xv
CHAPTER 1. INTRODUCTION.....	1
1.1. Background.....	1
1.2. Research Problem	2
1.3. Research Questions and Objectives	4
1.4. Research Originality and Significance	5
1.5. New Contribution of the Research.....	6
1.6. Scope of the Research.....	8
1.7. Clarification of the Key Concepts	10
CHAPTER 2. LITERATURE REVIEW	12
2.1. Urbanization and Development	12
2.2. Peri urban Land Use Change	14
2.3. Agriculture Development	15
2.3.1. Integration into urban system	17
2.3.2. Integration into sustainable development.....	19
2.4. Food Security and Food Mile	21

2.5.	Peri Urban Agriculture: Production & Consumption	23
2.6.	Sustainable Development	28
2.6.1.	Need of sustainable transition	29
2.6.2.	Challenges for sustainability of PUA	30
2.7.	Conceptual Framework	32
2.7.1.	Knowledge gap matrix	32
2.7.2.	Sustainable livelihood assessment of the peri urban farmers	34
2.8.	Summary from the Review of Literatures	38
CHAPTER 3. CASE STUDY RESEARCH METHOD		42
3.1.	Case Study Research Design	42
3.2.	Unit of Analysis	45
3.3.	Case Study Evidences	49
3.3.1.	Data collection procedures	51
3.3.2.	Snow ball sampling method	55
3.3.3.	Analysis of case study evidence	56
3.4.	Research Flowchart.....	60
CHAPTER 4. DESCRIPTION OF THE RESEARCH AREA.....		61
4.1.	Location	61
4.2.	Population and Urbanization	66
4.3.	Spatial Urbanization	67
4.4.	Economic Characteristics	68
4.5.	Land Use Changes	70
4.6.	Agriculture and Food Supply Chain	72
4.7.	Scenario of Peri Urban Agriculture	76
4.8.	Existing Land use and Agricultural Policy	78
4.8.1.	Land Use Policy 2012	78

4.8.2. National Agriculture Policy.....	79
4.9. Uniqueness of Kathmandu Valley based on the study	81
CHAPTER 5. FINDINGS	84
5.1. Diversity of Peri Urban Farmers.....	84
5.1.1. Rural Immigrants as Peri urban Farmer (A1).....	87
5.1.2. Agribusiness by the urban residents (A2)	90
5.1.3. Agricultural cooperatives (A3).....	94
5.1.4. Native Peri urban Farmer (A4).....	96
5.1.5. Self-consumption (A5)	99
5.2. Role of Seller and Buyer in the Sustainability of PUA	102
5.3. Integrated Policy to Foster Sustainability of PUA and Sustainable Development	111
5.4. Scenario during and after Nepal Earthquake 2015	112
5.5. Problem and Prospects for the sustainability of PUA.....	114
CHAPTER 6. CAUSAL NEXUS FOR THE PROBLEMS IDENTIFIED AND DISCUSSION.....	116
6.1. Weak Market Mechanism and Bargaining Power	117
6.2. Weak Policy Safeguarding PUA land and Peri Urban Farmers' Right	119
6.3. Productive Land Fragmentation.....	121
6.4. Substantiation of the Root Causes	122
6.5. Land Tenure System and Sustainable Livelihood Assets.....	124
6.5.1. Natural and Physical capital	126
6.5.2. Human capital.....	134
6.5.3. Social and Political capital	138
6.5.4. Financial capital.....	141
6.6. Impact of the Land Tenure System on Livelihood Strategies	144
6.6.1. Agricultural intensification.....	145

6.6.2. Diversification of employment and income sources	146
CHAPTER 7. IMPLICATION FOR THE POLICY FORMULATION AND SUSTAINABLE DEVELOPMENT	148
7.1.1. Access to agricultural inputs	149
7.1.2. Agricultural production	149
7.1.3. Market mechanism and promotion	150
7.1.4. Incorporate UA into long range planning efforts	151
7.1.5. Location specific land use	152
7.1.6. Leverage the excellent work done by the agribusiness	152
7.1.7. Agricultural development and rural territorial development.....	153
7.1.8. Loan, credit, investment programs and business opportunities.....	153
7.1.9. Helping build and reinforce farmers' CBOs	154
7.1.10. Empowering women and youth.....	154
7.1.11. Conservation, promotion and utilization of natural capital	155
7.1.12. Agriculture research and studies	155
7.1.13. Encourage innovative design in new development	156
7.1.14. Creating and maintaining archives; database	156
CHAPTER 8. CONCLUSION AND RECOMMENDATION.....	160
CHAPTER 9. REFERENCES.....	164
CHAPTER 10. APPENDICES.....	182

LIST OF TABLES

Table 1.1: Research objectives and research questions.....	4
Table 2.1: Food security indicators	21
Table 2.2: Research based on Explanatory Case Study	33
Table 3.1: Criteria for judging the quality of the research	44
Table 3.2: Research questions and objectives based on the knowledge gap.....	45
Table 3.3: Peri urban farmers as key informant under different selection criteria from Kathmandu (K), Lalitpur (L) & Bhaktapur (B)	52
Table 3.4: Sellers from the local vegetable market as key informant under different selection criteria.....	53
Table 3.5: Buyer as key informant under different selection criteria.....	54
Table 4.1: Agricultural area around the urban and peri urban area of the KV	65
Table 4.2: Urban population in Nepal and KV	66
Table 4.3: Vegetable produce in the peri urban areas of the KV	74
Table 5.1: Peri urban farmers classified under 5 categories.....	84
Table 5.2: Agriculture as different source of income for different category of peri urban farmers.....	86
Table 5.3: Summarized characteristics of peri urban farmers existing in the KV	101
Table 5.4: Interviewed buyers' perspective (summary)	105
Table 5.5: Key elements for preferring to sell local vegetables by the sellers... ..	107
Table 5.6: Summarized thoughts of sustainability of PUA in KV (comparison)	110
Table 6.1: Factors guiding consumers' preferences	123
Table 6.2: Agriculture for daily consumption and business purpose	130
Table 6.3: Highest education acquired in the peri urban agricultural HHs	137
Table 6.4: Farmers' family members education in different field of study.....	138
Table 6.5: Respondents summary on the factors required for the quality improvement of PUA	140
Table 6.6: Some of the proposed recommendation in relation with sectors and actors along with plan and policies	157
Table 10.1: Difference between rural agriculture and urban/ peri urban agriculture	182
Table 10.2: Indicators for the HHs food security	183

Table 10.3: Types of perishable vegetables grown in Kathmandu Valley	184
Table 10.4: Findings from the empirical studies to formulate knowledge gap ..	187
Table 10.5: Questionnaires for farmers, sellers and buyers	195
Table 10.6: Sample of filled questionnaires from the peri urban farmers in the native script devnagiri (Nepali)	207
Table 10.7: Sample of filled questionnaires from the sellers from the local markets of the KV in the native script devnagiri (Nepali)	213
Table 10.8: Sample of filled questionnaires from the buyers in the native script devnagiri (Nepali).....	215
Table 10.9: Effects of the peri urban agricultural land fragmentation on the people's livelihood	216

LIST OF FIGURES

Figure 1.1: Growing urban population and the decreasing agricultural land in KV	3
Figure 2.1: Six integrated building blocks of UA/ PUA	17
Figure 2.2: MDGs and urban agriculture	20
Figure 2.3: Food security relationship with social and environmental welfare ...	22
Figure 2.4: Local vegetable market (Kalimati Tarkari Bazaar of Kathmandu district on left and Lagankhel Tarkari Bazaar on right) in KV	24
Figure 2.5: Flexibility in work participation; members of agricultural HHs selling the vegetable produce	25
Figure 2.6: Localized food insecurity in Nepal and short fall in production in other parts of the world.....	25
Figure 2.7: Schematic food chain system.....	27
Figure 2.8: Analytical sustainable livelihoods framework for PUA HHs.....	35
Figure 2.9: State of the art/ Research originality.....	41
Figure 3.1: Multiple units of analysis in the case study of KV; described as single case embedded.....	46
Figure 3.2: Case study method for the research	48
Figure 3.3: Research data triangulation.....	50
Figure 3.4: Research objectives with data collection and analysis procedures	58
Figure 3.5: Flowchart highlighting i) Data collection ii) Data analysis iii) Data presentation.....	60
Figure 4.1: Pictorial views of the Kathmandu Valley	62
Figure 4.2: Map of the study area Kathmandu Valley	63
Figure 4.3: Main rivers crossing the KV making its land arable.....	64
Figure 4.4: Vegetable farm in the peri urban area (Thimi, Bhaktapur district) and Agricultural sector employment in KV	69
Figure 4.5: Increasing built-up at the cost of agricultural land	73
Figure 4.6: Existing food supply chain for import and regionally produced both	75
Figure 4.7: Marketing channel of the agricultural produced in KV	75
Figure 4.8: Individual (left) and NGO's (right) growing vegetable for self-consumption	76
Figure 4.9: Peri urban vegetable produce supply chain in KV.....	82
Figure 5.1: Number of key informants from the three districts.....	85

Figure 5.2: Rural immigrants from Ramechhap and Humla districts farming in the Lalitpur (first row) and ‘Tokha’ Kathmandu district (second row)	87
Figure 5.3: Agribusiness farmed plots in the Kathmandu district.....	91
Figure 5.4: Farmers producing only one vegetable. E.g. tomato (first row) and mushroom (second row)	92
Figure 5.5: Agricultural cooperative named ‘krisi fresh non-pesticide products’ (top left) and ‘sakhu palubari samudayik sahakari samstha’(top right) in Lalitpur & Kathmandu district respectively	95
Figure 5.6: Natively owned agricultural land in Bhaktapur district (Mostly 0.1-0.2 hectare)	96
Figure 5.7: Agriculture for the self-consumption purpose only	99
Figure 5.8: Sellers in ‘tukucha’ vegetable market selling only vegetable produce from the valley (first row) and sellers reaching buyers’ door (second row)	102
Figure 5.9: Intermediaries taking vegetable produce from the field to the market	103
Figure 5.10: Buyers picking fresh from the field and enjoying the open space .	104
Figure 5.11: Vegetable growing spaces used as shelter during Nepal Earthquake 2015	104
Figure 5.12: Only one private cold storage in the whole KV	106
Figure 5.13: Coexistence of ‘land’ for ‘agriculture’ and ‘market’ of the produced under the influence of good policy and institutional support	109
Figure 6.1: Cause effect analysis ‘weak market mechanism and bargaining power’	117
Figure 6.2: Cause effect analysis ‘weak policy safeguarding PUA land and peri urban farmers’ right’	119
Figure 6.3: Cause effect analysis showing root causes for the productive land fragmentation.....	121
Figure 6.4: Existing Raj kulo and pumping water from Manahara river	127
Figure 6.5: Distribution of ownership of agricultural land across three districts	128
Figure 6.6: Distribution of experiences in the agriculture across three districts	129
Figure 6.7: Participants’ response on existing natural capitals’ benefits across three districts	130
Figure 6.8: Percentage of farmers’ response on several benefits when ‘farmer is a seller’	132
Figure 6.9: Percentage response distribution of farmers for infrastructures important for the PUA development	133

Figure 6.10: Percentage response distribution of farmers in three districts for benefits of PUA compared to the long-distance vegetable import.....	134
Figure 6.11: Brick factory in ‘Siddhipur’ and construction materials storage in Lubhu both in the Lalitpur district.....	135
Figure 6.12: Family members’ participation in the agricultural activity.....	136
Figure 6.13: Modifications in the agricultural system.....	137
Figure 6.14: Farmers’ response on social network of peri urban farmers (among themselves, intermediaries and sellers)	139
Figure 6.15: Farmers’ response on the ability to utilize existing social structure	141
Figure 6.16: Percentage response of farmers across three districts in saving management.....	142
Figure 6.17: Farmers’ response among three districts for source of capital for agribusiness	143
Figure 6.18: Family members involved in other income generating sources other than agriculture	146
Figure 10.1: Sustainable Livelihoods Analytical Framework for agricultural HHs from peri urban area	184
Figure 10.2: Check list for Sustainable Livelihood Framework	185
Figure 10.3: Map showing peri urban areas studied.....	186
