Yayasan Pondok Pesantren Al-Qur'an Anak-Anak Nurul Ulum merupakan lembaga pendidikan islam yang terdiri dari program *boarding school* untuk SD/MI. Para santriwan santriwati dibina dalam aspek intelektual, mental spiritual dan *life skill* agar menjadi generasi yang bertaqwa, cerdas dan mandiri. Calon santriwan santriwati diharuskan mengisi formulir pendaftaran, mengunggah berkas dan lolos mengikuti seleksi agar menjadi santriwan santriwati di Pondok Pesantren Al-Qur'an Anak-Anak Nurul Ulum.

Pengembangan sistem informasi pendaftaran pondok pesantren Al-Qur'an Anak-Anak Nurul Ulum bertujuan untuk memudahkan proses pendaftaran calon santriwan santriwati dan petugas pendaftaran, sistem ini dibangun menggunakan bahasa pemrograman PHP dan javascript, framework CodeIgniter dan basis data MySQL.

Sistem yang dibangun memberikan fasilitas kepada calon santriwan santriwati dalam mengelola formulir pendaftaran, menerima informasi terkait pendaftaran serta hasil seleksi. Sedangkan fasilitas yang diberikan kepada petugas dan pengelola pondok pesantren dalam mengelola data calon santriwan santriwati, data petugas, data pengelola pondok pesantren, serta pengaturan blog.

Kata kunci : Sistem Informasi, Pondok Pesantren, CodeIgniter, PHP, Javascript dan MySQL

## **ABSTRACT**

### ***WEB-BASED ISLAMIC BOARDING SCHOOL REGISTRATION INFORMATION SYSTEM***
