

Intisari

Mina Soka Mandiri adalah kelompok pembudidaya ikan di Desa Purwomartani, Kabupaten Sleman yang telah berdiri sejak tahun 2006. Penelitian ini bertujuan untuk mengetahui perubahan sosial di Kelompok Pembudidaya Ikan (Pokdakan) Mina Soka Mandiri di Desa Purwomartani, Kecamatan Kalasan, Kabupaten Sleman. Aspek perubahan sosial yang diteliti adalah kelembagaan dan interaksi kelompok. Pengumpulan data lapangan dilakukan pada bulan November 2016 hingga Mei 2017. Data primer dikumpulkan dari semua anggota Pokdakan (29 orang) dengan metode sensus. Data sekunder dikumpulkan dengan metode studi dokumen. Hasil penelitian menunjukkan bahwa struktur organisasi dalam kelompok mengalami penambahan seksi, sehingga pembagian tugas lebih terfokus. Manfaat sosial, ekonomi dan informasi yang diperoleh anggota dari kelompok mengalami naik turun. Pada awal berdirinya kelompok di tahun 2006, anggota merasakan manfaat yang diberikan oleh kelompok. Anggota mulai merasakan penurunan manfaat kelompok pada tahun 2012-2016, karena kelompok mengalami berbagai konflik internal dan eksternal. Interaksi antara kelompok dengan pemerintah mengalami peningkatan, sedangkan interaksi dengan penyuluh mengalami penurunan.

Kata kunci : perubahan sosial, interaksi, Pokdakan, Kabupaten Sleman

Abstract

Mina Soka Mandiri is a group consist of fish farmers in Purwomartani Village, Kalasan District, Sleman Regency that were established since 2006. This study aimed to determine the social changing in farmers group Mina Soka Mandiri in Purwomartani Village, Kalasan District, Sleman Regency. Social change aspects that were studied the organization and group's interaction. Data collection was conducted from November 2016 to May 2017. Primary data were collected from all fish farmer group members (29 persons) by census method. Secondary data were collected by study document. The results showed that there was an addition of coordination on the organizational structure in the group, so the tasks distribution was more focused. The social, economic and information benefits that members got from the group was fluctuation. As the group started in 2006, the members got the benefits given by the group showed by a rapid development in aquaculture in Kadisoka. The members began to feel the decline of groups benefit in 2012-2016 caused by internal and external conflicts. Interaction between groups and the government was increasing because of a help support, while interaction with extension workers was encountered a decline.
