

## TABLE OF CONTENTS

<b>TITLE PAGE</b> .....	i
<b>APPROVAL PAGE</b> .....	ii
<b>AUTHENTICITY STATEMENT</b> .....	iii
<b>PREFACE</b> .....	iv
<b>TABLE OF CONTENTS</b> .....	vi
<b>LIST OF TABLES</b> .....	viii
<b>APPENDICES LIST</b> .....	ix
<b>ABSTRACT</b> .....	x
<b>CHAPTER I. INTRODUCTION</b> .....	1
1.1 Background.....	1
1.2 Research Problem.....	3
1.3 Research Purpose.....	3
1.4 Research Benefit.....	4
1.5 Research Originality .....	4
<b>CHAPTER II. LITERATURE REVIEW</b> .....	6
2.1 Literature Review .....	6
2.1.1 Anemia prevalence.....	6
2.1.2 Anemia .....	7
2.1.3 Iron deficiency anemia.....	8
2.1.4 Pathogenesis of iron deficiency anemia.....	9
2.1.5 Iron Absorbtion .....	10
2.1.5.1 Luminal Phase.....	11
2.1.5.2 Mucosal Phase.....	12
2.1.5.3 Corporeal Phase.....	13
2.1.6 Iron usage in erythropoiesis.....	14
2.1.7 Inflammation .....	15
2.1.7.1 Inflammation cell .....	16
2.1.7.2 Inflammatory mediator .....	18
2.1.8 The immune system in Gastrointestinal tract mucosa.....	19
2.1.9 Probiotic role in in preventing GI tract inflammation.....	21
2.1.10 Effects of oligofructose as prebiotics in maintaining gut health.....	22
2.1.11 Food frequency analysis.....	24
2.1.12 Oligosaccharide content in food.....	25
2.2 Basic Theory.....	28
2.2.1 Theoretical framework.....	28
2.2.2 Research conceptual framework .....	29
2.3 Hypothesis .....	29
<b>CHAPTER III. RESEARCH METHOD</b> .....	<b>30</b>
3.1 Research Type and Design .....	30
3.2 Research Population .....	30
3.3 Sample Size .....	31

3.4 Research Variable.....	32
3.5 Research Variables and Operational Definition .....	32
3.6 Research Instrument .....	34
3.7 Place and Date .....	35
3.8 Data Collection .....	35
3.9 Research Ethic .....	36
3.10 Data Analysis.....	36
3.11 Research Difficulties and Weakness .....	37
<b>CHAPTER IV. RESULT AND DISCUSSION.....</b>	<b>39</b>
4.1 Result.....	39
4.1.1 Demographic characteristics of the respondents.....	40
4.1.2 Determining the median of Haemoglobin level .....	41
4.1.3 The correlation between children oligosaccharide intakes with the haemoglobin level .....	42
4.1.4 Calculation of odds ratio.....	42
4.2 Discussion.....	43
4.2.1 Test subject characteristics.....	43
4.2.2 Determining the median of Haemoglobin level .....	45
4.2.3 The correlation between person oligosaccharide intakes with the haemoglobin level .....	45
4.2.4 Calculation of odds ratio .....	47
<b>CHAPTER V. CONCLUSION AND SUGGESTION .....</b>	<b>49</b>
5.1 Conclusion.....	49
5.2 Suggestion .....	49
<b>REFERENCES .....</b>	<b>50</b>
<b>APPENDICES .....</b>	<b>55</b>

## LIST OF TABLES

Table 1. Research originality .....	5
Table 2. Anemia Prevelance .....	10
Table 3. Type of anemia and its prevelance.....	12
Table 4. List of food contain oligosaccharide with its oligosaccharide content....	25
Table 5. Demographic distribution of the respondent.....	45
Table 6. Mean and median of the oligosaccharide intake and haemoglobin level from Wates 2 <sup>nd</sup> state junior high school and Wates 3 <sup>rd</sup> state junior high	46
Table 7. Analysis of the correlation between person oligosaccharide intakes with the haemoglobin level.....	47
Table 8. Odds ratio of having haemoglobin level below median when oligosaccheride intake is below 2,25g/day.....	48

## APPENDICES LIST

Appendix 1. Food frequency analysis of oligosaccharide intake used in this experiment.....	59
Appendix 2. Oligosaccharide intake of the subject in g/day .....	60
Appendix 3. List of subject haemoglobin level In g/dl .....	61
Appendix 4. The chi square result of correlation between children oligosaccharide intakes with the haemoglobin level.....	62
Appendix 5. Calculation of the Odd rat.....	63
Appendix 6. URT used in this experiment.....	63
Appendix 7. Ethical Clearance.....	68
